## County's Orchards Will Be At Peak Bloom Sunday; Chicken Barbecue Dinner

Adams County fruitgrowers report that last week's cool weather has paced blossoming in the county's orchards to the extent that the peak is expected by Sunday which has officially been declared Apple Blossom Sunday.

The different elevations in the county's Appalachian foothills practically insure great displays of blossoms regardless of the weather from this point. The annual springtime show has already been touched off with the appearance of peach blossoms in the lower elevations. Next in order, and often overlapping, are the stark white cherry blossoms, especially striking against the black-appearing bark of the trees. However, these fruits are but a prelude to the glory of the apple blossom.

**Blossoms Are Star**

In addition to the variations in elevations, the apple blossom show is prolonged by the wide number of varieties grown in Adams County from the early Summer Rambo to the later York Imperial. Committees of fruit growers and their wives are quick to point out that the star of the show on Apple Blossom Sunday is the blossoming orchards even though other features are planned for additional enjoyment and entertainment of visitors to the one day celebration.

These features include a chicken barbecue dinner to be served from 11 a.m. to 6 p.m. at the South Mountain Fairgrounds one mile west of Arendtsville on route 234. A smorgasbord of homemade Adams County apple desserts is an optional feature of the dinner.

At 2:30 o'clock Miss Joan M. Staub, recently chosen Apple Blossom Queen, will be crowned at a coronation ceremony, surrounded by a court of princesses.

Hospitality booths and information centers will be located in strategic spots along the blossom trails where apple juice will be served free to tourists and directional blossom trails have been erected to guide tourists over many miles of paved roads that wind through the fruit belt.

Springtime will be at its blossoming best in Adams County on Apple Blossom Sunday.

## CONEWAGO IS SEEKING TO JOIN HANOVER

Release of the Conewago Twp. School District from the Adams County school plan which calls for that district to join others in the Littlestown Joint District was asked in a resolution presented to the Adams County School Board at its meet Monday night in the office of the superintendent of schools.

The resolution of the Conewago Twp. school directors points out that although Conewago was grouped with the Littlestown area districts, it has never joined with those districts for school operation. The resolution further states that Conewago is adjacent to Hanover, that most of its growth has been and it is anticipated that future growth will be suburban to Hanover.

Hanover and Conewago Twp. want to form a joint school district, the resolution adds, and a similar request has been placed before the York County School Board.

Superintendent C. P. Keefer, before presenting the resolution, described it as "something the board will agree is of great importance to Adams County."

Since only three of the county board members were present, it was decided to table the resolution until the next meeting, but two board members indicated an inclination to approve the Conewago request. One said: "If that is their wish, we won't stand in the way of it."

Keefer pointed out that although Conewago was included with Littlestown (Continued On Page 4)

In other action the county board elected three special education teachers, advanced one from assistant and received, with regret, the resignation of another.

## 'LAW DAY' IS MARKED BY ROTARIANS

"Strange as it may seem, the Dred Scott case which helped start the Civil War and which most people think was based on the attempt of a slave to seek his freedom from a cruel master was actually based on the desire of a slave to keep his master," Attorney Donald J. Farrage, Philadelphia, professor of constitutional law at Dickinson College, told the local Rotary Club at its meeting Monday evening in the YWCA.

Speaking on "Law Day," which is observed May 1 under sponsorship of the American Bar Association, Mr. Farrage told the group: "The average layman thinks of the law as a set of unyielding rules but lawyers know that laws do change and are based upon the rule of the public."

"Today we read in the papers of lynchings, of the rights of negro voters being violated. The Supreme Court has ruled in favor of integration in the schools, restaurants and theaters. We in the north are accepting the change but the change is more difficult in the south. But it is interesting to note that that change required almost 100 years to the day."

"We go back to the Dred Scott decision when the Supreme Court believed it had solved the slavery question forever by finding the Missouri Compromise unconstitutional, just about 100 years ago, and then we come up to today" (Continued On Page 9)

## "Unity With Firmness" Is Herter Forecast In Paris

By DAVID MASON PARIS (AP)—U.S. Secretary of State Christian A. Herter arrived from Washington today to help wrap up Western proposals on Germany for the Geneva foreign ministers' conference with the Soviet Union.

In a brief arrival statement, Herter said he is confident the West will approach the Geneva meeting "with unity and firmness of purpose."

He referred to disagreements among the Allies over proposals to be made to the Soviet Union saying, "it is wholly natural that the Western Countries should regard the questions to be discussed with the Soviets from somewhat different points of view."

But he said he has no doubt the Western Allies will "agree wholeheartedly" on the position they will take in Geneva.

Herter stepped from his four-engine Air Force plane and walked easily down the ramp. He had a broad smile and warm handshakes for the welcoming party.

With the aid of crutches he walked over to a group of photographers behind a police barrier and posed for several minutes.

Then Herter went into an airport reception room and made his statement, first in slightly accented French and then in English.

## CHILDREN IN REC PROGRAM ARE INSURED

Children who take part in the borough recreation activities under supervision are covered by insurance carried by the borough, the Gettysburg Recreation Board was informed Monday evening at its meeting in the recreation office at the Gettysburg High School.

Donald Kreiser, special agent from the Harrisburg office of the U. S. Fidelity and Guarantee Co., and John H. Baschore, borough treasurer, outlined to the board the coverage given for both injury and liability.

The board had asked information on the borough's insurance coverage for children after a youngster suffered a laceration on a slide at the Recreation Park. Insurance paid for medical treatment. Repairs were being effected to the slide. Recreation Board Chairman Kenneth Dengler told the board. When workmen left the scene and a youngster attempted to use the slide the injury resulted.

To Buy Equipment According to the information given by Kreiser and Baschore, the insurance covers all phases of recreation board activities so that all children are protected whether they are at Recreation Park or Tot Lots or taking part in some activity at the school or elsewhere, so long as it is part of the supervised play program.

Recreation Director Chester Hilger said equipment for the summer program will be purchased through local outlets who were the low bidders.

He reported that it is anticipated that milk will be supplied each day at the Tot Lots during the summer season with various clubs and groups providing the funds.

Approval was given for Hilger (Continued On Page 4)

## Lions Donate To Kiddies' Milk Fund

Gettysburg Lions Monday evening voted \$10 toward the cost of supplying milk to youngsters on the "tot lots" to be operated this summer under the recreation program. The club also directed its treasurer, J. Herbert Weikert, to make the club's \$125 payment to the Little League.

President John C. Stahle presided with about 70 in attendance. It was announced that the nominating committee will present its report in two weeks and the election will be held in June.

With D. E. Hess serving as auctioneer an auction of articles donated by club members was held for the benefit of the convention fund. The sale netted \$102.55.

The meeting was held at the Stetter House.

## Gives Birth To 4th Set Of Twins

BUFFALO, N. Y. (AP) — "We were kind of stuck for names for a while, as you can understand," said Joseph Volk.

It was easy to understand. His wife, Vivian, 35, gave birth to her four straight set of twins Sunday.

Doctors at the hospital said the odds were at least 100 million to one.

Volk, a research director for a building materials firm, said "We decided on James Joseph and Sandra Sue."

The Volks also have one child who is not a twin.

## 'LAW DAY' IS MARKED BY ROTARIANS

"Strange as it may seem, the Dred Scott case which helped start the Civil War and which most people think was based on the attempt of a slave to seek his freedom from a cruel master was actually based on the desire of a slave to keep his master," Attorney Donald J. Farrage, Philadelphia, professor of constitutional law at Dickinson College, told the local Rotary Club at its meeting Monday evening in the YWCA.

Speaking on "Law Day," which is observed May 1 under sponsorship of the American Bar Association, Mr. Farrage told the group: "The average layman thinks of the law as a set of unyielding rules but lawyers know that laws do change and are based upon the rule of the public."

"Today we read in the papers of lynchings, of the rights of negro voters being violated. The Supreme Court has ruled in favor of integration in the schools, restaurants and theaters. We in the north are accepting the change but the change is more difficult in the south. But it is interesting to note that that change required almost 100 years to the day."

"We go back to the Dred Scott decision when the Supreme Court believed it had solved the slavery question forever by finding the Missouri Compromise unconstitutional, just about 100 years ago, and then we come up to today (Continued On Page 9)

## TREATED FOR CUT

## "Unity With Firmness" Is Herter Forecast In Paris

By DAVID MASON

PARIS (AP)—U.S. Secretary of State Christian A. Herter arrived from Washington today to help wrap up Western proposals on Germany for the Geneva foreign ministers' conference with the Soviet Union.

In a brief arrival statement, Herter said he is confident the West will approach the Geneva meeting "with unity and firmness of purpose."

He referred to disagreements among the Allies over proposals to be made to the Soviet Union saying, "it is wholly natural that the Western Countries should regard the questions to be discussed with the Soviets from somewhat different points of view."

But he said he has no doubt the Western Allies will "agree wholeheartedly" on the position they will take in Geneva.

Herter stepped from his four-engine Air Force plane and walked easily down the ramp. He had a broad smile and warm handshakes for the welcoming party.

With the aid of crutches he walked over to a group of photographers behind a police barrier and posed for several minutes.

Then Herter went into an airport reception room and made his statement, first in slightly accented French and then in English.

Carlin Brown, 22-year-old Baltimore negro, was indicted in three cases involving nine counts by the Adams County Grand Jury Monday while three other men were indicted on seven cases of burglary and larceny, a total of 14 counts, and a Fairfield R. 1 man, Lewis D. Sheeley, was indicted on five cases of involuntary manslaughter, one for each of the persons fatally hurt in an auto accident south of here on the Emmitsburg Rd.

Other indictments handed up by the foreman, Rev. Arbe Dorsey, included a morals charge against Patrick Dealy, now in the U.S. Navy and formerly of Hanover, to which he pleaded innocent; four counts of assault and battery each against Robert L. Topper, William E. Imler and James C. Imler, all of Hanover; pointing a firearm, against Mary Goulden, Gettysburg R. 1; burglary and larceny against Richard Dale Stone, Middletown, Charles Albert Stone and James Michael Peedin, all of Lancaster, and burglary and larceny against Charles Carl Watson.

## Signs Some Pleas

Brown signed a plea of guilty to the larceny of a dress from Mrs. Theodore Schmitz, Carlisle St., but pleaded innocent to the charge of burglary based upon his entry of a hallway of the apartment house where Mrs. Schmitz resides where he found the dress in a box against the door to the Schmitz apartment.

Brown signed a plea of guilty to a charge of breaking out of jail and to a charge of larceny of a motor vehicle from Clarence Thompson of Gettysburg.

He signed a plea of guilty to receiving stolen goods by having in his possession an antique revolver stolen from the home of former Sheriff Dorsey J. Schultz but pleaded innocent to a charge of breaking into the Schultz home.

## More Pleas Entered

Brown pleaded guilty to receiving stolen goods in having in his possession keys from the apartment of Robert Steinberger, Carlisle St., but pleaded innocent to charges of breaking into the Steinberger apartment. He also pleaded innocent to charges of burglarizing the home of Morris Sherman, E. Broadway.

Topper and the Imlers, who range in age from 18 to 22, entered pleas of guilty to the assault and battery charges on which they were indicted.

Lewis Sheeley entered an innocent plea to the five involuntary manslaughter charges against him.

"Not Guilty" in Murder Case

An automatic "innocent plea" was entered for Thomas Luther Brown, Gettysburg R. D., on the murder charge against him. It was noted that murder is the one crime to which no one may plead guilty because a trial is needed (Continued On Page 4)

## FIVE HURT IN CRASH TODAY; CHARGE DRIVER

Harper W. Varner, 47, Biglerville R. 1, was to be taken before Justice of the Peace Robert P. Snyder this afternoon to face a charge of driving under the influence after his truck and a car crashed in the rain on Mt. Newman this morning about 11:45 o'clock. Five persons were injured, none apparently seriously.

State police, who investigated, said that Varner was going east on the Lincoln Highway when he stopped in the center lane of the highway in front of Kane's tavern and then turned left into the path of a westbound car operated by Isaac B. Earhart, 50, Columbia R. 1.

## Vehicles Demolished

Both the 21-year-old Varner truck and the Earhart sedan were demolished, police said.

Varner was being x-rayed at the Warner Hospital this afternoon for possible rib fractures.

Earhart was treated for chest contusions and these other occupants of his car received treatment for these injuries: Harvey Earhart, 67, brother of Isaac, multiple cuts of the forehead and face and contusions of the left knee; Barry Earhart, 16, broken front teeth, and Walter Ely, 55, Maytown, Pa., sprained ankle and contusions of the shoulders.

All were expected to be released after treatment.

The Gettysburg ambulance brought two of the injured to the Warner Hospital.

## Gadgets Spelling Doom Of Spring Housecleaning

By VIVIAN BROWN  
AP Newsfeatures Writer

If you are one of those housewives who still engages in spring cleaning, you may be doing it from habit. Ask yourself: Is this project necessary?

A recent survey conducted to determine the popularity of spring cleaning in 1959 revealed that few women think about it. The story was the same in a small mid-western town as in New York City — the house is so easy to clean from day to day that laborious cleaning jobs are no longer necessary.

Newer vacuum cleaners with easy-to-use accessories have made the care of drapery, molding and blinds an easy daily job. When draperies and curtains are taken down for cleaning, it's a cinch. Newer miracle fabrics and other lightweight materials may be tossed into the automatic washing machine or left to drip-dry. Cold water soaps insure the happy washability of shrinkable items.

**No-Rinse Cleaners**  
There are no-rinse wall and floor cleaners that have made those jobs a breeze, especially with sponge mops that help do the job effortlessly. There is less soot around the house with special furnace filters that trap soot during winter months.

Window cleaning is no longer the back-breaking job that housewives dreaded in the past, although most women interviewed in the survey considered window cleaning still one of the hardest physical jobs in the house.

About half the women cleaned windows or had them cleaned at least six times a year. Many prefer the spray-on blue liquids that take some of the chore out of window cleaning, easier on the hands

than homemade solutions. Many Work Gadgets

The myriad of work gadgets such as rug cleaning shampoo machines and attachments make floor coverings "do-it-now" projects.

At the first sign of dust, put the little gizmo to work, and there you have a nice clean rug — so rolling up the carpet, vacuuming and beating. Ditto for slipcovers that were a real chore in the past. Remove them when Junior puts his sticky fingers on a seat cover or dirt appears, toss them in the washing machine.

Other chores such as cleaning the stove have been reduced to a minimum by easy cleaning products. We hang up our copper pots because these may be kept twinkling with modern cleaners. Bottoms may be whisked to a fast shine by a sweep of the hand.

**Hubby Excused**  
There are so few big chores connected with today's home that even the helpful husband is likely to get a respite from spring cleaning. Often it was he who carted the rugs in the backyard waxed the floors, removed heavy draperies for cleaning. The waxing machine is such an easy to use gadget that it is used more frequently in the average home these days to keep floors in ballroom lustre.

The entire structure of housework has become simple. No more house maid's knee, red knuckles, fatigue. A woman has time for other activities, and if she doesn't have a clean house she's a social disgrace. As one woman put it:

"While it isn't exactly an insult to say someone is a good housekeeper, it comes fairly close. It is expected of a woman that her house is clean. If the implication

## Agent Issues Fourth Peach Spray Letter

In the fourth peach spray letter of the current series, County Agent Frank S. Zettle explains to growers how to prevent cat-facing from plant bug injury, control of oriental fruit moth and how to keep brown rot and scab in check.

To make 100 gallons of spray, use either of the two formulas as follows, making application when 95 per cent of the petals fall off: Ricolone 50 per cent WP, 1/2 pound dilute or one pound concentrate plus DDT 50 per cent WP, two pounds dilute or six pounds concentrate.

Caplan 50 per cent WP, two pounds dilute or six pounds concentrate; plus DDT 50 per cent WP, two pounds dilute or six pounds concentrate.

Zettle cautions growers not to contaminate streams or ponds with any spray material.

## CLAIM WOMAN KILLED SISTER

LIVINGSTON, Ill. (AP)—A 39-year-old woman who for nine years nursed her elderly parents and a mentally retarded sister was held in jail today charged with the slaying of the sister.

A charge of murder was placed against Miss Anna Coloun by State's Atty. Richard Mudge, who said she admitted choking her sister, Susan, 33, because she would not stop screaming. Sheriff George Musso of Madison County said Susan was mentally retarded.

Anna lived alone in a small frame house adjoining that occupied by her parents and the sister, but police said she spent much of her time caring for the three. Her mother, Anna, is confined to a wheelchair, and her father, Steve, is bedridden.

The National Poetry Association of Los Angeles awarded certificates to the following students of meeting.

**APPEAL BOARD'S Ruling In Case**

An appeal has been made to the Adams County court from the decision of the state Workmen's Compensation Board in the case of Giovanni L. Duttera, Hanover R. 4, against H. Earl Pitzer, Inc., Aspers, and Laverne Duttera, Hanover R. 4.

The claim for workmen's compensation is based on an injury received November 25, 1957, by Giovanni Duttera which caused a disability, according to papers filed in the appeal with the county prothonotary.

The Pitzer concern and its insurance carrier, Fidelity and Casualty Co. of New York, bought the appeal claiming that the state workmen's compensation board, in directing that the compensation be paid by Pitzer, was in direct conflict with the findings of Referee David R. Ealy, who had held that Giovanni Duttera was an employee of Laverne Duttera at the time of the accident.

## County's Orchards Will Be At Peak Bloom Sunday; Chicken Barbecue Dinner

Adams County fruitgrowers report that last week's cool weather has paced blossoming in the county's orchards to the extent that the peak is expected by Sunday which has officially been declared Apple Blossom Sunday.

The different elevations in the county's Appalachian foothills practically insure great displays of blossoms regardless of the weather from this point. The annual springtime show has already been touched off with the appearance of peach blossoms in the lower elevations. Next in order, and often overlapping, are the stark white cherry blossoms, especially striking against the black-appearing bark of the trees. However, these fruits are but a prelude to the glory of the apple blossom.

**Blossoms Are Star**

In addition to the variations in elevations, the apple blossom show is prolonged by the wide number of varieties grown in Adams County from the early Summer Rambo to the later York Imperial. Committees of fruit growers and their wives are quick to point out that the star of the show on Apple Blossom Sunday is the blossoming orchards even though other features are planned for additional enjoyment and entertainment of visitors to the one day celebration.

These features include a chicken barbecue dinner to be served from 11 a.m. to 6 p.m. at the South Mountain Fairgrounds one mile west of Ardenville on route 234. A smorgasbord of homemade Adams County apple desserts is an optional feature of the dinner.

At 2:30 o'clock Miss Joan M. Stein, recently chosen Apple Blossom Queen, will be crowned at a coronation ceremony, surrounded by a court of princesses.

Hospitality booths and information centers will be located in strategic spots along the blossom trails where apple juice will be served free to tourists and directional blossom trails have been erected to guide tourists over many miles of paved roads that wind through the fruit belt.

Springtime will be at its blossoming best in Adams County on Apple Blossom Sunday.

## CONEWAGO IS SEEKING TO JOIN HANOVER

Release of the Conewago Twp. School District from the Adams County school plan which calls for that district to join others in the Littlestown Joint District was asked in a resolution presented to the Adams County School Board at its meet. Monday night in the office of the superintendent of schools.

The resolution of the Conewago Twp. school directors points out that although Conewago was grouped with the Littlestown area districts, it has never joined with those districts for school operation. The resolution further states that Conewago is adjacent to Hanover, that most of its growth has been and it is anticipated that future growth will be suburban to Hanover.

Hanover and Conewago Twp. want to form a joint school district, the resolution adds, and a similar request has been placed before the York County School Board.

Superintendent C. P. Keefer, before presenting the resolution, described it as "something the board will agree is of great importance to Adams County."

Since only three of the county board members were present, it was decided to table the resolution until the next meeting, but two board members indicated an inclination to approve the Conewago request. One said: "If that is their wish, we won't stand in the way of it."

Keefer pointed out that although Conewago was included with Littlestown (Continued On Page 4)

## 19-Months Old Baby Stricken

Cynthia Hoffman, 19 months old daughter of Mr. and Mrs. Daniel Hoffman, Gettysburg R. 5, was rushed to Union Memorial Hospital, Baltimore, at 8:50 this morning in the Gettysburg Fire Company ambulance after she was stricken with "seizures" soon after awakening this morning about 7 o'clock.

The child reportedly fell while at play Monday, striking her forehead against a dresser in her bedroom, but supposedly suffered no ill effect and continued playing.

Dr. Stoner said this afternoon there was no report from the hospital concerning the extent of her injury.

Little Cynthia will be 20 months old Friday.

She was accompanied to Baltimore by her grandmother, Mrs. Louise Hoffman. Cynthia's mother is the daughter of Mr. and Mrs. George Coshun, 111 Culp St.

## Gives Birth To 4th Set Of Twins

**BUFFALO, N. Y. (AP)** — "We were kind of stuck for names for a while, as you can understand," said Joseph Volk.

It was easy to understand. His wife, Vivian, 35, gave birth to her four straight set of twins Sunday.

Doctors at the hospital said the odds were at least 100 million to one.

## 'LAW DAY' IS MARKED BY ROTARIANS

"Strange as it may seem, the Dred Scott case which helped start the Civil War and which most people think was based on the attempt of a slave to seek his freedom from a cruel master was actually based on the desire of a slave to keep his master," Attorney Donald J. Farrage, Philadelphia, professor of constitutional law at Dickinson College, told the local Rotary Club at its meeting Monday evening in the YVCA.

Speaking on "Law Day," which is observed May 1 under sponsorship of the American Bar Association, Mr. Farrage told the group: "The average layman thinks of the law as a set of unyielding rules but lawyers know that laws do change and are based upon the rule of the public."

"Today we read in the papers of lynchings, of the rights of negro voters being violated. The Supreme Court has ruled in favor of integration in the schools, restaurants and theaters. We in the north are accepting the change but the change is more difficult in the south. But it is interesting to note that that change required almost 100 years to the day."

"We go back to the Dred Scott decision when the Supreme Court believed it had solved the slavery question forever by finding the Missouri Compromise unconstitutional. Just about 100 years ago, and then we come up to today" (Continued On Page 9)

## "Unity With Firmness" Is Herter Forecast In Paris

**By DAVID MASON**

PARIS (AP)—U.S. Secretary of State Christian A. Herter arrived from Washington today to help wrap up Western proposals on Germany for the Geneva foreign ministers' conference with the Soviet Union.

In a brief arrival statement, Herter said he is confident the West will approach the Geneva meeting "with unity and firmness of purpose."

He referred to disagreements among the Allies over proposals to be made to the Soviet Union saying, "it is wholly natural that the Western Countries should regard the questions to be discussed with the Soviets from somewhat different points of view."

## CHILDREN IN REC PROGRAM ARE INSURED

Children who take part in the borough recreation activities under supervision are covered by insurance carried by the borough, the Gettysburg Recreation Board was informed Monday evening at its meeting in the recreation office at the Gettysburg High School.

Donald Kreiser, special agent from the Harrisburg office of the U. S. Fidelity and Guarantee Co., and John H. Basehore, borough treasurer, outlined to the board the coverage given for both injury and liability.

The board had asked information on the borough's insurance coverage for children after a youngster suffered a laceration on a slide at the Recreation Park. Insurance paid for medical treatment. Repairs were being effected to the slide, Recreation Board Chairman Kenneth Dangler told the board. When workmen left the scene and a youngster attempted to use the slide the injury resulted.

## To Buy Equipment

According to the information given by Kreiser and Basehore, the insurance covers all phases of recreation board activities so that all children are protected whether they are at Recreation Park or Tot Lots or taking part in some activity at the school or elsewhere, so long as it is part of the supervised play program.

Recreation Director Chester Hilger said equipment for the summer program will be purchased through local outlets who were the low bidders.

He reported that it is anticipated that milk will be supplied each day at the Tot Lots during the summer season with various clubs and groups providing the funds.

Approval was given for Hilger (Continued On Page 4)

## Lions Donate To Kiddies' Milk Fund

Gettysburg Lions Monday evening voted \$10 toward the cost of supplying milk to youngsters on the "lot lots" to be operated this summer under the recreation program. The club also directed its treasurer, J. Herbert Weikert, to make the club's \$125 payment to the Little League.

President John C. Stahl presided with about 70 in attendance. It was announced that the nominating committee will present its report in two weeks and the election will be held in June.

With D. E. Hess serving as auctioneer an auction of articles donated by club members was held for the benefit of the conversion fund. The sale netted \$102.55. The meeting was held at the Shetter House.

**Signs Some Pleas**

Brown signed a plea of guilty to the larceny of a dress from Mrs. Theodore Schmitz, Carlisle St., but pleaded innocent to the charge of burglary based upon his entry of a hallway of the apartment house where Mrs. Schmitz resides where he found the dress in a box against the door to the Schmitz apartment.

Brown signed a plea of guilty to a charge of breaking out of jail and to a charge of larceny of a motor vehicle from Clarence Thompson of Gettysburg.

He signed a plea of guilty to receiving stolen goods by having in his possession an antique revolver stolen from the home of former Sheriff Dorsey J. Schultz, but pleaded innocent to a charge of breaking into the Schultz home.

## More Pleas Entered

Brown pleaded guilty to receiving stolen goods in having in his possession keys from the apartment of Robert Steinberger, Carlisle St., but pleaded innocent to charges of breaking into the Steinberger apartment. He also pleaded innocent to charges of burglarizing the home of Morris Sherman, E. Broadway.

Topper and the Imlers, who range in age from 18 to 22, entered pleas of guilty to the assault and battery charges on which they were indicted.

Lewis Sheeley entered an innocent plea to the five involuntary manslaughter charges against him.

"Not Guilty" In Murder Case

An automatic "innocent plea" was entered for Thomas Luther Brown, Gettysburg R. D., on the murder charge against him. It was noted that murder is the one crime to which no one may plead guilty because a trial is needed (Continued On Page 4)

## FIVE HURT IN CRASH TODAY; CHARGE DRIVER

Harper W. Varner, 47, Biglerville R. 1, was to be taken before Justice of the Peace Robert P. Snyder this afternoon to face a charge of driving under the influence after his truck and a car crashed in the rain on Mr. Newman this morning about 11:45 o'clock. Five persons were injured, none apparently seriously.

State police, who investigated, said that Varner was going east on the Lincoln Highway when he stopped in the center lane of the highway in front of Kane's tavern and then turned left into the path of a westbound car operated by Isaac B. Earhart, 50, Columbia R. 1.

## Vehicles Demolished

Both the 21-year-old Varner truck and the Earhart sedan were demolished, police said.

Varner was being x-rayed at the Warner Hospital this afternoon for possible rib fractures.

Earhart was treated for chest contusions and these other occupants of his car received treatment for these injuries: Harvey Earhart, 67, brother of Isaac, multiple cuts of the forehead and face and contusions of the left knee; Barry Earhart, 16, broken front teeth, and Walter Ely, 55, Maytown, Pa., sprained ankle and contusions of the shoulders. All were expected to be released after treatment.

# Gadgets Spelling Doom Of Spring Housecleaning

By VIVIAN BROWN  
AP Newsfeatures Writer

If you are one of those housewives who still engages in spring cleaning, you may be doing it from habit. Ask yourself: Is this project necessary?

A recent survey conducted to determine the popularity of spring cleaning in 1959 revealed that few women think about it. The story was the same in a small mid-western town as in New York City — the home is so easy to clean from day to day that laborious cleaning jobs are no longer necessary.

Never vacuum cleaners with easy-to-use accessories have made the care of drapery, molding and blinds an easy daily job. When draperies and curtains are taken down for cleaning, it's a cinch. Newer miracle fabrics and other lightweight materials may be tossed into the automatic washing machine or left to drip-dry. Cold water soaps insure the happy washability of shrinkable items.

**No-Rinse Cleaners**  
There are no-rinse wall and floor cleaners that have made those jobs a breeze, especially with sponge mops that help do the job effortlessly. There is less soot around the house with special furnace filters that trap soot during winter months.

Window cleaning is no longer the back-breaking job that housewives dreaded in the past, although most women interviewed in the survey considered window cleaning still one of the hardest physical jobs in the house.

About half the women cleaned windows or had them cleaned at least six times a year. Many prefer the spray-on blue liquids that take some of the chore out of window cleaning, easier on the hands

than homemade solutions. Many Work Gadgets  
The myriad of work gadgets such as rug cleaning shampoo machines and attachments make floor coverings "do-it-now" projects.

At the first sign of dust, put the little gizmo to work, and there you have a nice clean rug — so rolling up the carpet, vacuuming and beating. Ditto for slipcovers that were a real chore in the past. Remove them when Junior puts his sticky fingers on a seat cover or dirt appears, toss them in the washing machine.

Other chores such as cleaning the stove have been reduced to a minimum by easy cleaning products. We hang up our copper pots because these may be kept twinkling with modern cleaners. Bottoms may be whisked to a fast shine by a sweep of the hand.

**Hubby Excused**  
There are so few big chores connected with today's home that even the helpful husband is likely to get a respite from spring cleaning. Often it was he who carted the rugs to the backyard, waxed the floors, removed heavy draperies for cleaning. The waxing machine is such an easy to use gadget that it is used more frequently in the average home these days to keep floors in ballroom lustre.

The entire structure of housework has become simple. No more house maid's knee, red knuckles, fatigue. A woman has time for other activities, and if she doesn't have a clean house she's a social disgrace. As one woman put it:

"While it isn't exactly an insult to say someone is a good housekeeper, it comes fairly close. It takes some of the chore out of window cleaning, easier on the hands

## Agent Issues Fourth Peach Spray Letter

In the fourth peach spray letter of the current series, County Agent Frank S. Zettle explains to growers how to prevent cat-facing from plant bug injury, control of oriental fruit moth and how to keep brown rot and scab in check.

To make 100 gallons of spray, use either of the two formulas as follows, making application when 95 per cent of the petals fall off: Richolone 50 per cent WP, 1/2 pound dilute or one pound concentrate plus DDT 50 per cent WP, two pounds dilute or six pounds concentrate.

Captain 50 per cent WP, two pounds dilute or six pounds concentrate; plus DDT 50 per cent WP, two pounds dilute or six pounds concentrate.

Zettle cautions growers not to contaminate streams or ponds with any spray material.

## CLAIM WOMAN KILLED SISTER

LIVINGSTON, Ill. (AP)—A 30-year-old woman who for nine years nursed her elderly parents and a mentally retarded sister was held in jail today charged with the slaying of the sister.

A charge of murder was placed against Miss Anna Colburn by State's Atty. Richard Mudge, who said she admitted choking her sister, Susan, 38, because she would not stop screaming. Sheriff George Musso of Madison County said Susan was mentally retarded.

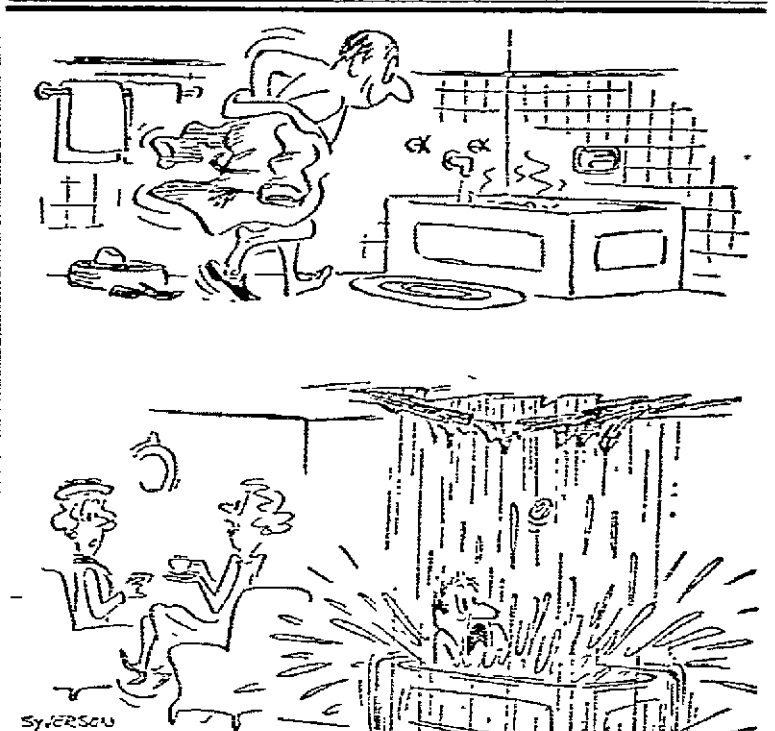

Anna lived alone in a small frame house adjoining that occupied by her parents and the sister, but police said she spent much of her time caring for the three. Her mother, Anna, is confined to a wheelchair, and her father, Steve, is bed-ridden.

## DO YOU HAVE ARTHRITIS?

Here is a message you will want to read. Your doctor can tell you there is absolutely no known cure for arthritis. Medical research specialists are now engaged in several projects which, it is felt, will ultimately help in finding a cure, but as yet none has been found. Naturally, we all live in hope they will be successful, but until that time we must be content to get the best relief possible.

Right now there is a fast, safe and effective relieving agent available called Pruvo. Pruvo's ingredients have been used in hospitals and clinics, prescribed by doctors, and have helped scores of men and women to lead happy and full lives. You can be sure nothing is faster, safer or has been proven more effective than Pruvo for temporary easing of a minor arthritic condition or its related diseases: rheumatism, neuritis, sciatica, lumbago and bursitis. ## Out Of The Past

From the Files of the Star and Sentinel and The Gettysburg Times

### FIFTY YEARS AGO

**Safe Blown At Table Rock:** The mill of Luther Plank at Table Rock was broken into between one and two o'clock this morning, the safe dynamited, between fifty and sixty dollars in cash, notes, checks and other valuables taken. Four burglars did the work and escaped without being caught though shots were fired after them.

The explosion was heard by no one in Table Rock. The first indication that there was anything wrong was discovered by William Funt, the Table Rock blacksmith, who was sleeping in the room above the office. He smelled smoke from dynamite and on hearing some one in the room below opened the window and shot. He heard talking and called for Mr. Plank. The latter hurried over but the burglars escaped without being caught. The night was pitch dark and only the forms of the men could be seen.

From Table Rock the burglars hastened to Biglerville where they broke into the house of Samuel Dugan and stole the railroad hand car. On this they made their way as far as Hunter's Run where the car was found late this morning. Shovels and other articles which had been placed on the hand car when it was put away for the night were found strewn all along the way from Gardner's to Hunter's Run.

**Story Of War Is Revealed:** Lost by one Federal soldier in the sudden shifting of an army corps at Chancellorsville, Va.; found two months later by another at Gettysburg; presented to Perseverance Lodge of Masons, Harrisburg, and finally, after a lapse of almost forty-six years, returned to its original owner—that is the history of a Masonic apron belonging to E. L. Fonda, of Averhill park, New York, which has recently come to light.

The history of the apron unfolds a leaf from the past and brings back again stirring memories of the Civil War.

It was found lying among the rocks on Culp's Hill at the conclusion of the second day's struggle by John Cunkel, of Harrisburg. Mr. Cunkel presented it to Perseverance Lodge in October 12, 1863.

For some years the apron was hung on the lodge room walls, but finally it was taken down and stored with many other relics in a drawer in a cabinet.

In March 1908 Dr. John M. J. Raunk, then worshipful master of Perseverance Lodge, was rummaging through the cabinet and came across the old apron. He discovered on the back a stenciled name, "E. L. Fonda."

After many months of correspondence with the War Department, the Pension Department, the Manufacturer of the apron and others, the owner was finally located and the apron returned.

Then it was learned that the owner also fought here and was with his regiment on Little Round Top at the time his apron, lost at Chancellorsville, was found on Culp's Hill by the Harrisburg man.

It is hoped by Dr. Raunk that even after this lapse of years he can find somebody who can bridge the gap between May 1, 1863, when the apron was lost in Virginia and July 3, 1863, when it was found at Gettysburg.

**Local News Happenings:** F. V. Topper, of McSherrystown, will open a barber shop in Littlestown and has engaged Charles Sefton to assist him in his work.

### "CHILDREN LIVE TODAY"

Children have God-given power... to rejoice in present things... they look not to the future... nor do they seek passive springs... children live not for tomorrow... they are owners of today... if you doubt what I am writing... gaze upon a child at play... children want what now can offer... they have everything in view... things unknown to them are worthless... every dawn brings something new... if we older folks could only... halt our thoughts about tomorrow... this life would be void of worry... and there would be much less sorrow... but we are no longer children... so we scan the future's sea... seldom living in the present... often in the used-to-be.

## Today's Talk

### NEVER GET USED UP!

All of us have a greater reserve of strength and power than we know. It's at the testing time that you learn your real ability to map out your daily work and see it through. One of the most remarkable men of this generation is Dr. Albert Schweitzer, who retired several years ago to manage a hospital in the jungles of Africa. Life magazine called this man "the greatest in the world at this time." He certainly is doing a remarkable work, sacrificing himself in order to serve others.

Dr. Schweitzer gave up a brilliant opportunity in music, medicine, the ministry, and many other tempting offers, but he gave them all up to serve people who were ignorant, lazy, and difficult to teach. He cared not at all for his loss of strength. He did not look upon it as a waste of himself. I find his published books most inspiring.

I came across this statement from this remarkable man: "The great secret of success is to go through life as a man who never gets used up. That is possible for him who never argues and strives with men and facts, but in all experiences retires upon himself, and looks for the ultimate cause of things in himself."

It is amazing how strong a person gets when tried in an emergency. Physical and spiritual strength then assert themselves. The reserve power takes command and rules the day and hour! Never get used up. Be all that you are. Look to God, the finisher of your Faith, the inspirer of your soul. Never allow anything to use you up or damage your courage.

Tomorrow Mr. Adams will talk on the subject: "The Eyes of Springtime"

### PATIENCE

Success is not a thing to be attained by idle wishing. The largest fishes in the sea are caught by patient fishing.

The greatest books were only done by years of patient writing. The greatest battles ever won were won by patient fighting.

And so whatever hill you'd climb Or what ideal you're hugging, Remember you must wait your time.

And patiently keep plugging. Protected, 1959, by The George Matthew Adams Service

**Presents Communion Service:** An interesting feature of the Communion service at Bender's Church last Sunday was the use, for the first time, of the new individual communion service. This service is made of aluminum highly polished and presents the rich appearance of silver with all the advantages in respect to weight. It is the generous gift of Mrs. Eliza A. Warren to the Reformed congregation of which Rev. Theo. C. Hesson is pastor.

**We Have Moved:** The Gettysburg Times and Adams County News are now located in their new home in the North West Corner of Center Square.

**Celebrating Anniversary:** The opening services of the Silver Anniversary of the pastorate of Rev. Dr. T. J. Barkley were held on Sunday in Trinity Reformed Church. Three services were held, all of which were largely attended by the members of the two congregations and the friends of the two churches, Trinity and St. Mark's.

to attend the Pennsylvania Recreation conference at Pennsylvania State University.

The ballroom dancing instruction, an experiment this spring for a group of junior high school students, "proved so successful we plan to expand the program next fall," the board decided. Discussion indicated that the dancing instruction will also probably be opened for adults as well with the adults to be asked to pay a nominal fee to help cover the cost of the instructor.

"Lassie softball," a program of softball for girls about the sixth grade level, is proving more popular than expected, the board was told. Approximately 75 have turned out for the instruction. The board plans to continue the program through the summer and possibly eventually set up a sort of girls' Little League under sponsorship of local women's groups—if the interest continues and arrangements can be made.

A letter was read from Attorney Eugene R. Hartman, chairman of the youth committee of St. James Lutheran Church, suggesting that a downtown room be rented to provide a teen-age center open each evening from 7 to 10 o'clock. The matter was tabled. The board discussed the possibility of leasing the refreshment stand at the Recreation Field to some group or organization for the summer.

## CONEWAGO IS

(Continued From Page 1)  
tation when the county plan to organize schools districts into administrative units was prepared some years ago, the jointure with the other districts in the Littlestown system was never made.

Conewago, he said, operates its own elementary school, grades 1 through 8 and sends its high school pupils to Hanover on a tuition basis.

It was brought out that Conewago has not been considered in the Littlestown Joint Board's building program.

### Need In Hanover

In Hanover, school authorities are looking forward to the time, not far distant, when new high school facilities will be needed. Since the state will not permit the inclusion of tuition pupils in setting up a proposed school schedule, Hanover cannot get approval for building a school which will accommodate the Conewago high school students, that is, not unless Hanover and Conewago Twp. form a jointure.

The nearly 70 pupils from Conewago provide more than "two high school units. If Conewago pupils, Grades 9 through 12 attend classes in Hanover the number will be greater.

Dr. Charles Davis, Hanover school superintendent, said today that the proposal is to form a jointure to operate all grades, kindergarten through high school. He said that Conewago Twp. elementary pupils will soon be attending classes in a new 11-room school nearing completion in the township. Now they are scattered in several old buildings and in two rented classrooms.

Dr. Davis said that the proposal is being made to the York County School Board for action by that body. The York board will meet Thursday.

**Rev. Deitz Speaks**  
Mrs. Paul Singmaster, of the program committee, introduced the speaker, Rev. Reginald W. Deitz, of the seminary faculty. Speaking on "The Heart Of One," he told the group: "Our problem is to find a place for the individual. We tend to regard others according to their functions rather than their place as individual human beings. We even test now to fit everyone into categories, we forget that each human is an individual and not a mechanic, or a preacher, or whatever. A sterling goal for our vicinity would be our concern and mission to deal with people as they are. We are expected to be Christs to our neighbors."

Hostesses, from the Biglerville Garden Club, were Mrs. O. A. Nary, Mrs. Warren Enck, Mrs. Clifford Bucher and Mrs. Blaine Walter.

## Big League Maps Plans For Season; Auction To Be Held; Opens May 26

Initial plans for the 1959 season were begun at a meeting of Big League officials at a meeting Monday evening at the VFW Home. Patrick McDermitt, vice president, presided.

One major change was decided upon. All players moving up from the Big Little League or from other teams will be bought at an auction which will take place at the next meeting Monday, May 11, at 8 p.m. at the VFW Home. The fourth place team of last year will be given one free choice after which the third, second and first place teams will also get one free choice in that order. Following the free selections other selections will be made by purchasing at the auction.

All players on team rosters last year will be required to remain with the same teams this year.

**Age Bracket**  
The league is open to boys who are 16 years of age and up to and including 20 years providing they did not reach their 20th birthday before last January 1.

A tentative schedule for practice for all eligible players was set with drills scheduled for the evenings of May 5 and 7 on the practice field at Gettysburg College. A committee including McDermitt, George Grawe and Jules Swope was named to get in touch with college officials to arrange for the field. Rain dates for drills were set as May 6 and 8.

The league schedule will open Tuesday, May 26, and will conclude on August 11. Saturday games have been eliminated with each team playing a 12-game schedule. Games will be played each Tuesday and Thursday evening at 6:15.

At the conclusion of the regular season the four teams will stage a playoff tournament. Trophies will be awarded the first place team and the playoff titlist.

## MOUNT LOSES 8-2 M-D TILT TO SHOREMEN

Mt. St. Mary's College lost its seventh game in nine starts when Washington College scored five times in the first inning and then breezed to an 8-2 verdict in a Mason-Dixon Conference game Monday at Chestertown, Md.

The big blow of the opening inning was a three-run homer by Bob Davenport.

Chuck Vadas, Mount hurler, started the game by walking Preston. Skordas doubled him to third and Miller walked to load the bases. Leverage singled home two runs. Miller stopping at second. Lenane singled but Miller was cut down at the plate. Davenport then smacked his circuit blow.

The Mounts finally scored in the top of the sixth. Bob Segrell walked. Bill Hessler also walked and Rayne reached Duval on the mound for the Shoemen. Ted Gilbert advanced both runners on a ground out. Mike Joy set the runners home with a single to left. Washington has a 5-1 conference mark while the Mount is 2-5.

Catholic University will play at Emmitsburg Saturday.

## Shippensburg High Picks Cage Coach

The Shippensburg School Board has selected Edward E. Palmer, 29, a coach for the past five years at Pen Argyl, as its head basketball mentor, R. Todd Lloyd, superintendent of schools, announced Monday.

Palmer, originally of Bangor, Pa., will replace George Kohut, who resigned to take a similar position at Cedar Cliff High. Lloyd said that he would receive \$400 for coaching basketball and \$5,000 for teaching history.

At the same time, Lloyd said that Shippensburg still hadn't decided upon a successor to Kohut as football coach. Kohut was both the head football and basketball coach at Shippensburg.

## DODGERS TAKE 1-GAME LEAD IN NL CONTEST

By ED WILKS  
Associated Press Sports Writer

Virtually no one but the other players in the National League considered the Los Angeles Dodgers a threat for the pennant. And even the players would shrug when they explained that the Dodgers "were too good to be seventh last year."

So who's in first? The Dodgers. They made it a one-game lead Monday night, whipping Pittsburgh 9-3 with a five-run first inning. That supplied all the cushion Don Drysdale needed to beat the Pirates for the first time since 1957.

**Third Straight Win**  
It was the lanky right-hander's third consecutive victory after losing his first decision and he did it with a six-hitter.

That was the only game played in the majors Monday. Only two others were scheduled, both in the NL, and both were postponed by rain.

Manager Fred Haney's planned benching of left fielder Wes Covington and shortstop Johnny Logan was shelved when his defending champion Milwaukee Braves had to call off their game with the Chicago Cubs. The San Francisco Giants, in third place but only a game shy of the Dodgers along with the second place Braves, also were idled by rain, at Philadelphia.

**Witt Chased**  
The Dodgers, with Gil Hodges the only holdover from the old guard in the line-up, chased winless George Witt, the sophomore who figured predominantly in Pittsburgh's pennant plans, before he retired a man. That left the young right-hander with an 0-3 record and put the Pirates seventh, four games off the pace.

Witt, again troubled by a painful elbow this spring, walked the first two men he faced, then left after Wally Moon beat out an infield hit and Don Demeter lined a two-run single. Don Zimmer also singled home a pair and Drysdale singled home another before reliever Ron Blackburn retired the side.

**Took Long Lead**  
Hodges tripled home a run in the fourth for the Dodgers, who had 11 hits, and they counted another in the fifth on a single by Charlie Neal, his second of the night and the last in a string of seven he began Sunday in St. Louis.

That gave Drysdale a 7-0 lead before the Pirates bunched three hits for a sixth-inning run, on Smoky Burgess' double. They got their other two in the ninth, on another Burgess double, two walks and a pair of outs before Drysdale ended it by making Ramon Mejias his seventh strikeout victim.

## Bullets' Seventh Game Cancelled

The seventh cancellation on the Gettysburg College baseball schedule took place Monday when the game at Elizabethtown was called off because of rain.

It was indicated there is a slight possibility the game may be re-scheduled.

Bob Hulton's Bullets (7-2) will meet Albright at Reading on Saturday in their only scheduled game of the week.

## 56TH BOWLING CONGRESS ENDS IN ST. LOUIS

ST. LOUIS (AP)—The constant roar of falling tenpins has been replaced by the scurrying of hundreds of workmen dismantling the 38 lanes used for the 56th American Bowling Congress Championships.

The last bowler in the 72-day tournament had hardly stepped off the lanes Sunday night before the wrecking crew began work.

In a few days thousands of bowlers will begin a vigil at their mailboxes, awaiting news of how much, if any, of the \$385,977 in prizes they won. The biggest single check will be for \$2,500 to the Detroit Pfeiffers, who won the open team event with a record smashing 3243 series. The smallest check will be \$5 to the man who finished approximately 5,650th among 17,020 who competed in the singles.

Altogether the Pfeiffers will profit almost \$6,000 for their near-sweep of the tournament. Captain Ed Lubanski's record 2116 in the all-events will net \$1,000, while his leading singles total of 764 will land \$500 more.

The Pfeiffers also won the team all-events trophy, for which there is no cash award, with 9561, the second highest in ABC history. The St. Louis Falstaffs set the high mark in the category in 1958 with 9608.

## SURGERY FOR BOXER

PHILADELPHIA (AP)—A team of surgeons performed an emergency head operation on boxer Gene Tippet, 24, of Pittsburgh, Monday night after he was knocked out in the seventh round of a featured eight-rounder. He was in critical condition today at Episcopal Hospital.

Knock Tippet down with a hard left hook the jaw, Tippet's head hit the canvas.

PITTSBURGH (AP)—Walt Alston, manager of the National League-leading Los Angeles Dodgers, says he suspects his team was shamed into playing good ball this season.

"No one likes to finish seventh," Alston said, referring to the Dodgers' showing last year. "Yes, I would say the boys' pride was somewhat hurt."

So far the Dodgers have won 10 games while losing 5.

When the Notre Dame fencing team lost recently to the Air Force Academy, 14-13, it was the first setback for the Irish swordsmen in three years. They had won 25 straight matches.

day when 3,500 fans turned out to see the two fighters in a double-header workout at the Fairgrounds Coliseum, where the bout will be staged.

London, former British heavyweight champion, is a 10-1 underdog in current betting.

## FATIGUE AND TUMBLE HURT PENN STATE

PHILADELPHIA (AP)—An unexpected slip and a tired half-mile shattered an ambitious dream of Penn State to win four of the eight major titles in the Penn Relays.

But Coach Chick Werner shrugged and said he wasn't too disappointed that his lads managed to carry off only two championships in the mammoth carnival that wound up Saturday.

The Nittany Lions hadn't won a crown since 1951 before this year. But they showed up with an imposing aggregation of middle distance runners. They won the distance medley the first day and appeared to be off and running.

**Win Four-mile Relay**  
Then, with Ed Moran running anchor, Penn State captured the four-mile relay in 17:11.3 to open the Saturday program. That gave the team a perfect 2-for-2 mark.

A little over an hour later, the Nittany Lions toled the mark in the two-mile relay, ready to make it three victories. Dick Engelbrink, running anchor, couldn't hold a five-yard lead and Michigan won it in 7:41 on Tony Seth's 1:52.5 anchor.

Then came the sprint medley relay. Penn State ruled the heavy favorite in this, too. But on the first turn, Dick Hambright, running the open leg, tripped and fell.

**Win Slow Race**  
"I don't know how I tumbled," he said. "No one was near me." Penn won it in 3:28, which is about four seconds slower than Penn State would clock at its worst.

Only twice in the 65-year history of the Penn Relays have teams won four events. It happened in 1939 (Pitt) and 1945 (Michigan).

Ablene Christian was the other team to score a double this year. Bill Woodhouse and Co. took the quarter-mile in 40.9 and the half-mile in 1:24.5. Both were meet records.

## DERBY TRIAL AT CHURCHILL DOWNS TODAY

LOUISVILLE, Ky. (AP) — The boom or bust Kentucky Derby hopes of 16 three-year-olds go on the line today in the Derby Trial, final tuneup before Saturday's \$125,000-added classic.

The top eight or ten performers in the Trial, split into two divisions for the first time, probably will be among those going in the derby.

But today's mile run is likely to convince owners of the lesser lights their charges don't rate an appearance in the mile - and a quarter "Run for the Roses" at Churchill Downs Saturday.

**Picture Wide Open**  
The derby picture remains wide open.

Still to be accounted for are up to nine other possible starters now in the barns at the historic track.

The trial has a tempting East-West flavor. Finnegun, standard bearer of California, heads the field of eight in the first division at early odds of 8 to 5. And First Landing, last year's two-year-old champ from the East, is an even-money favorite to win the second.

**Arcaro To Ride**  
Both will carry 122 pounds compared with Derby weight of 126. Each division is worth \$15,000-added money.

Two colts are expected to give Finnegun a real fight. Royal Orbit, another California contender, is rated a 7-2 choice with Jockey Bill Hartack riding. Chris Rogers will ride Bayard Sharp's Troilus, the Flamingo winner going off at early odds of 9-2.

Finnegan, owned by Neil S. McCarthy, will have veteran Johnny Longden up.

Eddie Arcaro, winner of five derbies, will ride Christopher T. Chenery's First Landing.

## PATTERSON DOING WELL

INDIANAPOLIS (A) — Floyd Patterson often has been called the "unknown champion" lately.

When he hears about it he must laugh to himself.

For with his title defense against England's Brian London this Friday night, the heavyweight king's earnings in less than seven years of pro fighting will go over the million-dollar mark.

From that Sept. 12 night in 1952 when he collected \$75 for his first pro fight right through his last effort on Aug. 18, 1958, when he stopped Roy Harris, the quiet, mannerly Patterson has earned \$904,000 in the ring.

Of course, Uncle Sam and Manager Gus D'Amato got their cuts but it still left a good chunk for the once-retarded youth.

The 24-year-old champion figures to earn in the neighborhood of \$200,000 including the television fee, against the lowly regarded Briton.

Young Baseball Fan Is Crushed To Death

DELAWARE TOWNSHIP, N.J. (AP) — Sever-year-old Donald Stinger was an avid baseball fan. He spent almost all his allowance on bubble gum so he could get the pictures of ball players in the gum packages.

Donald was carrying about 100 pictures Monday when he got off his school bus near his Woodcrest home. As he hurriedly crossed in front of the bus, he dropped the pictures. He bent over to pick them up.

The bus driver, Edward Newton, 38, of Woodbury, didn't see Donald's bent body as he started to leave the bus stop.

The front section of the bus passed over the boy without touching him, but the right rear wheel caught Donald and crushed him to death.

## BULLETINS

PANAMA (AP) — Panama charged Monday night that hired fighters are massing in Cuba for more invasion attempts to overthrow President Ernesto de la Guardia.

Minister of Government Jose D. Baxan told the National Assembly two or three more invasion boats are being prepared in Cuba to bring to "about 400 the number of Cubans attempting to invade Panama." The government claims the Cubans are hired by Panamanian revolutionists.

WASHINGTON (AP) — Senate Democratic Leader Lyndon B. Johnson of Texas today told the U.S. Chamber of Commerce that Congress will appropriate less than the 77 million dollars budgeted by President Eisenhower for the coming fiscal year.

"I believe in a balanced budget," Johnson said in an address to the 2,000 businessmen at the chamber's 47th annual meeting here.

His words were applauded warmly. When questioned by reporters later Johnson said his words didn't mean he was forecasting a balanced budget in fiscal 1960 beginning July 1.

HOT SPRINGS, Ark. (AP) — Thirteen of 16 persons aboard a Continental Trailways bus were injured today, four of them severely, when the driver lost control of the vehicle while attempting to avoid a collision with a truck.

The bus skidded, crashed through a wire fence, rolled down a 20-foot embankment and came to rest upright in three feet of water. The accident occurred on a causeway of Lake Hamilton on State Highway 7 about four miles south of here.

Appeal Board's Ruling In Case

An appeal has been made to the Adams County court from the decision of the state Workmen's Compensation Board in the case of Giovanni L. Dutera, Hanover R. 4, against H. Earl Pitzer, Inc., Aspers, and Laverne Dutera, Hanover R. 4.

The claim for workmen's compensation is based on an injury received November 25, 1957, by Giovanni Dutera which caused a disability, according to papers filed in the appeal with the county prothonotary.

The Pitzer concern and its insurance carrier, Fidelity and Casualty Co. of New York, bought the appeal claiming that the state workmen's compensation board, in directing that the compensation be paid by Pitzer, was in direct conflict with the findings of Referee David R. Eady, who had held that Giovanni Dutera was an employee of Laverne Dutera at the time of the accident.

50 Dangerous Old Shells Gone

CHARLESTON, S.C. (AP) — Authorities fear that children may be playing with deadly Civil War shells carted away from Ft. Sumter during the weekend.

The shells, dug up by workmen last week, can be touched off by a spark, heat, friction or a shock.

About 50 shells were found, and the ammunition was to have been stored Monday.

But the shells were gone when workmen arrived. W. L. Luckett, superintendent of Ft. Sumter National Monument, said 14 of the shells were turned in by parents who found their children playing with the ammunition.

Kills Her Sister

Accidentally

WASHINGTON (AP) — Police said an 11-year-old girl accidentally shot her 9-year-old sister in the forehead Monday night. The wounded child, Darlene Mill, died five hours later.

The weapon was a .22 caliber target pistol the children found under a mattress in their mother's bedroom.

L. Charles Burns of the homicide squad said Susan Mills pulled the trigger.

Alice Green, 34, mother of the children, and her husband, James Green, 24, were not at home, Burns said.

## May Ask \$800,000 For Hard Up School Districts To Remove Fire Hazards

By LEONARD A. UNGER  
HARRISBURG (AP)—The Lawrence administration has come up with a figure of roughly eight million dollars as the cost of correcting fire hazards in the 5,200 public school buildings in the state.

A spokesman, who asked not to be identified, said Monday that only the governor's approval was needed before asking the Legislature to set up a special \$800,000 appropriation to help financially distressed districts on such a program.

"We estimate that 90 per cent of the school districts in the state are in a financial position sound enough to handle their own repairs without any state help," he told the Associated Press.

"Many of them are already doing so."

Sixty Per Cent Need Changes  
The Labor and Industry and the Public Instruction Departments recently completed a survey which came up with the eight million dollar figure.

The report, virtually ready for presentation to the governor, says

that of the 5,200 public school buildings in the state, some 2,000 have been built or modernized since 1949 and 1,300 were built prior to 1900.

Sixty percent have been inspected for possible fire hazards and two out of three show the need for repairs to correct fire hazards, the spokesman said.

**Parochial Schools Not Included**  
The figures don't include the 1,400 parochial school buildings in the Commonwealth. They are subject to state inspection but are not eligible for state aid for improvements.

As a result of inspections completed as of April 15, the spokesman said, the Labor and Industry Department has issued 2,023 orders to correct fire hazards. Most of them are minor but three schools have been ordered closed entirely and the second floors of 19 schools have been shut off because of unsafe conditions.

**Three-part Program**  
A three-part program outlined in the tentative report calls for: Setting up a fund of about \$800,

## Runaway Smashes Hansom Cab In N.Y.

NEW YORK (AP)—People along Sixth Avenue Sunday night stopped and gaped at a rare sight—a runaway horse and a hansom cab.

The cab, which usually carries couples on leisurely trips through Central Park, was drawn by a 14-year-old gray horse named George.

George was waiting for passengers at a park entrance when he was startled by a car backfire and went clattering down the avenue, leaving his driver behind.

The empty cab was smashed as George bolted between two parked cars. George was caught some distance away, shaken but unhurt.

## 6 Negro Teen-agers Injured By Pellets

RICHMOND, Va. (AP)—Six Negro teen-agers walking home from a store were wounded Sunday night when hit by shotgun pellets reportedly fired by white boys from two speeding automobiles.

Police said the Negro boys told them three separate blasts were fired from the cars as they whipped through the Negro neighborhood.

Struck in the stomach and seriously wounded were Samuel Clark Jr., 15, and Carlton Washington, 16. Both were hospitalized.

The injured boys said they could not identify the white boys and had no idea why they were shot at.

The white boys involved in the shootings, police said, were believed to have been among white youths who engaged in a rock-throwing incident with Negro teen-agers earlier Sunday night.

000 to aid financially distressed school districts in correcting fire hazards. These districts would be limited to those so poor that they have a problem year after year of meeting payrolls.

Giving priority to districts with fire-hazardous schools for state aid for school construction. These districts would be placed at the head of a list of 665 projects now awaiting state aid for new school construction. This state aid averages about 50 per cent of the cost of construction.

Ordering school fire drills to be held twice a month instead of only once monthly and providing for more intensive instruction of teachers and other school personnel in fire safety.

Rep. Albert W. Johnson (R-McKean) already has sponsored legislation to set up a three-million-dollar fund to help school districts with fire hazard problems.

The measure makes no distinction as to whether the money should go to a wealthy or poor school district.

## LIU SHAO-CHI NEW PRESIDENT OF RED CHINA

By JOHN RODERICK  
TOKYO (AP)—Liu Shao-chi, hatchet-faced theoretician of the Communist party, moved Monday to the presidency of Red China. Peiping radio called him a "leader second only to Mao Tse-tung."

Chou En-Lai was re-named premier.

Mao relinquished the presidency to free himself for his more important duties as chairman of the Chinese Communist party. Choice of Liu, a 61-year-old Hunanese, strengthened his position as Mao's heir-apparent.

Peiping radio indicated, however, that Liu was not unopposed early this month when the party command chose him to be chairman—or president—of the government, which under Mao had been a largely ceremonial post. It said that he "had the support of a large segment of party members," suggesting the choice was not unanimous.

**Founder's Widow Named**  
Mme. Sun Yat-sen, widow of the founder of republican China, and veteran revolutionary Tung Pi-wu were named vice chairmen, succeeding Marshal Chu Teh who had held the job alone.

Chu, old enemy of Mao and former warlord governor of Yunnan province, had been expected to succeed Mao in the presidency. Instead, the 72-year-old marshal got Liu's old job as chairman of the important Standing Committee of the National People's Congress, the Red Chinese parliament.

Though Mao gave up the presidency, he remains Red China's undisputed boss as chairman of the Communist Central Committee. He undoubtedly personally chose Liu for the presidency in an apparent effort to groom him for the leadership of the party, where Liu already holds the No. 2 position.

The party leadership's choices were put before the People's Congress today. The nominations were unopposed, and the 1,157-member Congress went through the formality of voting.

## Find No Trace Of Missing Housewives

CLARKSBURG, W.Va. (AP)—The most intensive search so far for the missing Clarksburg housewives is ending like all the others before it—with nothing found.

Four National Guard companies, six fire departments, skin divers and volunteers joined police over the weekend to look for Mrs. Juanita Ferguson, 53, and Mrs. Virginia Conley, 54. The women have not been seen since they stopped at Sutton the night of April 8 while driving home from Beckley.

State Police Capt. C. L. Walker said that only a few secondary roads near Jackson's Mill remained to be checked. A handful of guardsmen are to go over them today.

## SAY TEACHER SHORTAGE IS EASING IN U.S.

By G. K. HODENFIELD  
AP Education Writer

WASHINGTON (AP)—The nation's teacher shortage is easing somewhat in the critical fields of science, mathematics and foreign languages, the National Education Assn. reported Monday.

In its annual survey, the NEA found that the over-all shortage would be about 135,000 teachers, the same as last fall.

The survey did not give a state-by-state breakdown. However, a spot check by The Associated Press last winter indicated that the states suffering the most are California, Michigan, Texas, New Jersey, New York and Ohio.

## New Crop In June

The NEA said the 1959 college graduating class promises to produce 6,984 new science teachers, an increase of 26 per cent over 1958. There will be 4,723 new math teachers, up 37 per cent, and 2,005 new foreign language teachers, up

23 per cent. Altogether, the class of '59 is expected about 73 per cent—or 92,500—of these graduates actually will take teaching jobs. Many of the rest will go into other fields because of higher pay or personal preference.

The NEA said the nation's public schools will need 227,500 new teachers next September, broken down this way:

94,500 to replace those leaving the field.  
33,000 to serve increased enrollment.

**135,000 Short**  
30,000 to relieve over-crowding and eliminate half-day sessions.  
20,000 to provide instruction and services not now provided.  
50,000 to replace unprepared or unqualified teachers.

If only 92,500 members of the class of '59 take teaching jobs, where are the other 135,000 coming from?

The big majority—probably in excess of 90,000—will be college graduates of previous years.

CHICAGO (AP)—Peter Joseph Welland, 56, general manager of the Milwaukee Railroad's eastern lines, died Saturday. He had been with the line more than 40 years.

## Big League Maps Plans For Season; Auction To Be Held; Opens May 26

Initial plans for the 1959 season were begun at a meeting of Big League officials at a meeting Monday evening at the VFW Home. Patrick McDermitt, vice president, presided.

One major change was decided upon. All players moving up from the Big Little League or from other teams will be bought at an auction which will take place at the next meeting Monday, May 11, at 8 p.m. at the VFW Home. The fourth place team of last year will be given one free choice after which the third, second and first place teams will also get one free choice in that order. Following the free selections other selections will be made by purchasing at the auction.

All players on team rosters last year will be required to remain with the same teams this year.

**Age Bracket**  
The league is open to boys who are 16 years of age and up to and including 20 years providing they did not reach their 20th birthday before last January 1.

A tentative schedule for practice for all eligible players was set with drills scheduled for the evenings of May 5 and 7 on the practice field at Gettysburg College. A committee including McDermitt, George Grawe and Jules Swope was named to get in touch with college officials to arrange for the field. Rain dates for drills were set as May 6 and 8.

The league schedule will open Tuesday, May 26, and will conclude on August 11. Saturday games have been eliminated with each team playing a 12-game schedule. Games will be played each Tuesday and Thursday evening at 6:15.

At the conclusion of the regular season the four teams will stage a playoff tournament. Trophies will be awarded the first place team and the playoff tidist.

## MOUNT LOSES 8-2 M-D TILT TO SHOREMEN

Mt. St. Mary's College lost its seventh game in nine starts when Washington College scored five times in the first inning and then breezed to an 8-2 verdict in a Mason-Dixon Conference game Monday at Chesterstown, Md.

The big blow of the opening inning was a three-run homer by Bob Davenport.

Chuck Vadas, Mount hurler, started the game by walking Preston. Skordas doubled him to third and Miller walked to load the bases. Leverage singled home two runs. Miller stopping at second. Leverage singled but Miller was cut down at the plate. Davenport then smacked his circuit blow.

The Mounts finally scored in the top of the sixth. Bob Segrell walked. Bill Hessler also walked and Rayne replaced Duvall on the mound for the Shoremen. Ted Gilbert advanced both runners on a ground out. Mike Joy set the runners home with a single to left.

Washington has a 5-1 conference mark while the Mount is 2-5.

Catholic University will play at Emmitsburg Saturday.

## Shippensburg High Picks Cage Coach

The Shippensburg School Board has selected Edward E. Palmer, 29, a coach for the past five years at Pen Argyl, as its head basketball mentor, R. Todd Lloyd, superintendent of schools, announced Monday.

Palmer, originally of Bangor, Pa., will replace George Kohut, who resigned to take a similar position at Cedar Cliff High. Lloyd said that he would receive \$400 for coaching basketball and \$3,000 for teaching history.

At the same time, Lloyd said that Shippensburg still hadn't decided upon a successor to Kohut as football coach. Kohut was both the head football and basketball coach at Shippensburg.

## DODGERS TAKE 1-GAME LEAD IN NL CONTEST

**By ED WILKS**  
Associated Press Sports Writer  
Virtually no one but the other players in the National League considered the Los Angeles Dodgers a threat for the pennant. And even the players would shrug when they explained that the Dodgers "were too good to be seventh last year."

So who's in first? The Dodgers. They made it a one-game lead Monday night, whipping Pittsburgh 9-3 with a five-run first inning. That supplied all the cushion Don Drysdale needed to beat the Pirates for the first time since 1957.

**Third Straight Win**  
It was the lanky right-hander's third consecutive victory after losing his first decision and he did it with a six-hitter.

That was the only game played in the majors Monday. Only two others were scheduled, both in the NL, and both were postponed by rain.

Manager Fred Haney's planned benching of left fielder Wes Covington and shortstop Johnny Logan was shelved when his defending champion Milwaukee Braves had to call off their game with the Chicago Cubs. The San Francisco Giants, in third place but only a game shy of the Dodgers along with the second place Braves, also were idled by rain, at Philadelphia.

**Witt Chased**  
The Dodgers, with Gil Hodges the only holdover from the old guard in the line-up, chased winless George Witt, the sophomore who figured predominantly in Pittsburgh's pennant plans, before he retired a man. That left the young right-hander with an 0-3 record and put the Pirates seventh, four games off the pace.

Witt, again troubled by a painful elbow this spring, walked the first two men he faced, then left after Wally Moon beat out an infield hit and Don Demeter lined a two-run single. Don Zimmer also singled home a pair and Drysdale singled home another before reliever Ron Blackburn retired the side.

**Took Long Lead**  
Hodges tripled home a run in the fourth for the Dodgers, who had 11 hits, and they counted another in the fifth on a single by Charlie Neal, his second of the night and the last in a string of seven he began Sunday in St. Louis.

That gave Drysdale a 7-0 lead before the Pirates bunched three hits for a sixth-inning run, on a Smokey Burgess double. They got their other two in the ninth, on another Burgess double, two walks and a pair of outs before Drysdale ended it by making Ramon Mejias his seventh strikeout victim.

**Bullets' Seventh Game Cancelled**  
The seventh cancellation on the Gettysburg College baseball schedule took place Monday when the game at Elizabethtown was called off because of rain.

It was indicated there is a slight possibility the game may be re-scheduled.

Bob Hulton's Bullets (7-2) will meet Albright at Reading on Saturday in their only scheduled game of the week.

## 56TH BOWLING CONGRESS ENDS IN ST. LOUIS

ST. LOUIS (AP)—The constant roar of falling tenpins has been replaced by the scurrying of hundreds of workmen dismantling the 38 lanes used for the 56th American Bowling Congress Championships.

The last bowler in the 72-day tournament had hardly stepped off the lanes Sunday night before the wrecking crew began work.

In a few days thousands of bowlers will begin a vigil at their mailboxes, awaiting news of how much, if any, of the \$335,977 in prizes they won. The biggest single check will be for \$2,500 to the Detroit Pfeiffers, who won the open team event with a record smashing 3242 series. The smallest check will be \$5 to the man who finished approximately 3,650th among 17,020 who competed in the singles.

Altogether the Pfeiffers will profit almost \$6,000 for their near-sweep of the tournament. Captain Ed Lubanski's record 2116 in the all-events will net \$1,000, while his leading singles total of 764 will land \$500 more.

The Pfeiffers also won the team all-events trophy, for which there is no cash award, with 9561, the second highest in ABC history. The St. Louis Falstaffs set the high mark in the category in 1938 with 9608.

## LOOM KEGLERS PERFORM WELL IN TOURNEY

John Maust rolled a 600 in the singles event to gain fourth place and the doubles entry of Joe and John McKernick, a 1,123 for fourth place in current standings of the annual Eastern Pennsylvania Moose Bowling tournament at Bloomsburg. The tournament continues through May 24.

PHILADELPHIA (AP)—A team of surgeons performed an emergency head operation on boxer Gene Tippet, 24, of Pittsburgh.

Monday night after he was knocked out in the seventh round of a featured eight-rounder. He was in critical condition today at Episcopal Hospital.

Carl Hubbard of Philadelphia knocked Tippet down with a hard left hook the jaw. Tippet's head hit the canvas.

**PITTSBURGH (AP)**—Walt Alston, manager of the National League-leading Los Angeles Dodgers, says he suspects his team was shamed into playing good ball this season.

"No one likes to finish seventh," Alston said, referring to the Dodgers' showing last year. "Yes, I would say the boys' pride was somewhat hurt."

So far the Dodgers have won 10 games while losing 5.

## FATIGUE AND TUMBLE HURT PENN STATE

PHILADELPHIA (AP)—An unexpected slip and a tired half-mile shattered an ambitious dream of Penn State to win four of the eight major titles in the Penn Relays.

But Coach Chick Werner shrugged and said he wasn't too disappointed that his lads managed to carry off only two championships in the mammoth carnival that wound up Saturday.

The Nittany Lions hadn't won a crown since 1951 before this year. But they showed up with an imposing aggregation of middle distance runners. They won the distance medley the first day and appeared to be off and running.

**Win Four-mile Relay**  
Then, with Ed Moran running anchor, Penn State captured the four-mile relay in 17:11.3 to open the Saturday program. That gave the team a perfect 2-for-2 mark.

A little over an hour later, the Nittany Lions toed the mark in the two-mile relay, ready to make it three victories. Dick Engelbrink, running anchor, couldn't hold a five-yard lead and Michigan won it in 7:41 on Tony Sed's 1:52.5 anchor.

Then came the sprint medley relay. Penn State ruled the heavy favorite in this, too. But on the first turn, Dick Hambright, running the open leg, tripped and fell.

**Win Slow Race**  
"I don't know how I tumbled," he said. "No one was near me." Penn won it in 3:28, which is about four seconds slower than Penn State would clock at its worst.

Only twice in the 65-year history of the Penn Relays have teams won four events. It happened in 1939 (Pitt) and 1945 (Michigan).

Ablene Christian was the other team to score a double this year. Bill Woodhouse and Co took the quarter-mile in 50.9 and the half-mile in 1:24.5. Both were meet records.

## DERBY TRIAL AT CHURCHILL DOWNS TODAY

LOUISVILLE, Ky. (AP) — The boom or bust Kentucky Derby hopes of 16 three-year-olds go on the line today in the Derby Trial, final tuneup before Saturday's \$125,000-added classic.

The top eight or ten performers in the Trial, split into two divisions for the first time, probably will be among those going in the derby.

But today's mile run is likely to convince owners of the lesser lights their charges don't rate an appearance in the mile - and a quarter "Run for the Roses" at Churchill Downs Saturday.

**Picture Wide Open**  
The derby picture remains wide open.

Still to be accounted for are up to nine other possible starters now in the barns at the historic track. The trial has a tempting East-West flavor. Finnegan, standard bearer of California, heads the field of eight in the first division at early odds of 8 to 5. And First Landing, last year's two-year-old champ from the East, is an even-money favorite to win the second.

**Arcaro To Ride**  
Both will carry 122 pounds compared with Derby weight of 126. Each division is worth \$15,000-added money.

Two colts are expected to give Finnegan a real fight. Royal Orbit, another California contender, is rated a 7-2 choice with Jockey Bill Harrack riding. Chris Rogers will ride Bayard Sharp's Troilus, the Flamingo winner going off at early odds of 9-2.

Finnegan, owned by Neil S. McCarthy, will have veteran Johnny Longden up.

Eddie Arcaro, winner of five derbies, will ride Christopher T. Cheney's First Landing.

**PATTERSON DOING WELL**  
INDIANAPOLIS (AP) — Floyd Patterson often has been called the "unknown champion" lately. When he hears about it he must laugh to himself.

For with his title defense against England's Brian London this Friday night, the heavyweight king's earnings in less than seven years of pro fighting will go over the million-dollar mark.

From that Sept. 22 night in 1952, when he collected \$75 for his first pro fight right through his last effort on Aug. 18, 1958, when he stopped Roy Harris the quiet, mannerly Patterson has earned \$804,000 in the ring.

Of course, Uncle Sam and Manager Gus D'Amato got their cuts but it still left a good chunk for the once-retarded youth.

The 24-year-old champion figures to earn in the neighborhood of \$200,000 including the television fee, against the lowly regarded Brunson.

## WORLD ON WHEELS THE DRIVER'S SEAT

By FLOYD CLYMER

**SIX-CYLINDER-POWERED CARS IN SPECTACULAR GAIN**—The economy angle stressed so much in past months by foreign car dealers and importers, as well as by Rambler and Studebaker, has undoubtedly changed the complexion of the type of equipment U.S. car buyers are ordering.

For the first quarter of the 1959 model run a whopping 66.66 per cent of the hard tops, sedans and coupe body styles produced by the "Big Three" in their low priced models consisted of cars powered by six-cylinder engines.

During the entire 1958 model year, 65.3 per cent of Chevrolet's Biscayne, Ford's Custom 300, Plymouth's Savoy, Rambler's DeLuxe, Super Custom and Rebel Super, and Studebaker's Lark models were fitted with six-cylinder engines. V-8 output dropped to 33.4 per cent, from 34.7 per cent.

**A SURPRISING FACT** is that Six's are going into 39.5 per cent of the 1959 model station wagons, which include all series of Ford, Chevrolet, Plymouth, Rambler and Studebaker. The count for the 1958 model run was 34.1 per cent for the Six's.

So far the V-8 share of 1959 models is down to 60.5 per cent, from 65.9 per cent last year.

Even a higher percentage of cars would be sold if factories had the capacity to supply the current demand for Six's. Ford especially is hard hit, as their six-cylinder engine is manufactured in Cleveland, Ohio and a higher six-cylinder engine production is needed and planned Ford is doing its utmost to keep up with six-cylinder demand by importing about 300 six-cylinder engines a day from their new Canadian subsidiary factory in Windsor, Ontario, Canada. Ford has had a spectacular sales increase and the increase has been, apparently, for models not anticipated. It is reported that 60 per cent of the present unfilled backlog of orders for Ford cars is for six-cylinder-powered models; and even the Edsel is now available with the

**FORD'S GALAXIE**, introduced a few weeks ago, has caught the fancy of thousands of buyers and 35 per cent of current orders are for Galaxie models, which seems to indicate that the U.S. buyer is still not in the mood to purchase the lowest-priced models of any of the "Big Three." Chevrolet and Plymouth have both experienced an increased demand, percentage-wise, for their luxury models.

In the low-priced field station wagons were sold with 25 per cent powered with six-cylinder engines. Rambler and Lark (by Studebaker), both smaller than conventional U.S. cars, have had skyrocketing sales and six-cylinder engines are by far the most popular power plants in each of these makes.

**CAR SALES WITH DUAL EXHAUSTS ARE SLIPPING**—Three or four years ago cars equipped with dual exhaust pipes were riding the crest of popularity. But something has happened in recent months. So far this year dual exhaust-equipped models have slipped 16 per cent over the same period for 1958.

At this same rate dual exhaust system equipment will drop approximately 800,000 factory installed units for the 1959 model year—this is figured on an estimated 1959 production of 5.9 million cars.

Another thing that has fallen by the wayside—and which in my opinion is an excellent change—is that the dual pipes no longer extend through the rear bumper. This idea was no good from the start—it added nothing to the appearance of the car, and soot and carbon expelled at the end of the tail pipes only served to dirty the bumpers, and many persons found this soot on their clothing when coming into contact with the rear bumper.

At one time 64 per cent of Ford cars were equipped with dual exhausts, as optional equipment. Dual systems are standard equipment this year on Cadillac, Lincoln, Imperial, Chrysler, Thunderbird and some other top price series of other makes. The dual systems usually are sold in combination packages which include special high-powered engines, and are available at purchaser's option.

Shedding some light on a serious highway safety problem, a prominent eye specialist from a noted university recently commented:

"The prime reason for the excess of night accidents is inadequate vision."

The doctor has made an excellent diagnosis of the cause of the biggest problem the man in the driver's seat faces today: how to stay off the growing nighttime accident list.

One prescription purposes the installation of lighting poles along most of the nation's 3,051,382 miles and streets. This would naturally increase visibility, but would cost taxpayers about \$50,000 per mile to install—or \$871 in taxes per person in the U.S. Costs for power, bulbs and maintenance are extra and continue.

#### Use Up Power

The lights, of course, would continue to burn and use up public power and money even when there are just a few or no cars on the lighted stretch of road. Lights are necessary in key traffic areas, but using them on most roads is somewhat like leaving all the lights burning in the house when everyone is fast asleep.

Traffic engineers, who can't let the urgently needed action against night accidents depend on whether huge sums are available or not, lean toward a night visibility solution the motorist already carries around with him wherever he drives. This system uses no public power, no tax-dollar bulbs, requires no maintenance, no expensive installation and furthermore shuts off when a driver is on the road. It uses the light provided by the cars themselves—reflected off hazards, car and signs.

#### Typical Example

One typical example of how this quick and economical solution to night accidents works is Harvey County, Kansas. Just \$4,000 was spent to apply materials that reflect car headlights. As cars approach at night their own lights brighten up the things the driver needs to see. They're visible when needed but cost nothing to operate.

The score sheet in Harvey County: nighttime accidents cut by one-third one year after this self-regulating safety system was installed, and injuries from night

accidents reduced 66 per cent.

What's good for Harvey County might well be good for the country—and the public's pocket-book.

HARRISBURG (AP)—Pennsylvania Republican leaders and members of the GOP state congressional delegation will soon have some 12,000 temporary jobs to fill for two federal censuses.

George I. Bloom, GOP state chairman, said Saturday that he recently conferred with U. S. Sen. Hugh Scott (R-Pa.) and Pennsylvania's Republican congressmen on procedures for naming field assistants for a farm census this year and supervisors for a population and housing census in 1960.

The field assistants and supervisors will choose the census takers.

Recruiting enumerators for the farm survey is expected to begin next October.

### 12,000 Census Jobs Will Open

HARRISBURG (AP)—Pennsylvania Republican leaders and members of the GOP state congressional delegation will soon have some 12,000 temporary jobs to fill for two federal censuses.

George I. Bloom, GOP state chairman, said Saturday that he recently conferred with U. S. Sen. Hugh Scott (R-Pa.) and Pennsylvania's Republican congressmen on procedures for naming field assistants for a farm census this year and supervisors for a population and housing census in 1960.

The field assistants and supervisors will choose the census takers.

### Forest Fire Causes Damage Of \$10,000

STROUDSBURG, Pa. (AP)—At least \$10,000 damages was done by a forest fire that swept through 1,000 acres of young timber and temporarily trapped six foresters on seven pines mountain near here.

Eugene McNamara, district forester of the State Forests and Waters department, said Sunday that \$10,000 would be a conservative estimate of the loss in timber and wildlife.

The fire began shortly before noon Saturday. One hundred volunteers brought it under control 10 hours later. The cause of the blaze was not known.

### Boston Tenement Fire Routes 110

BOSTON (AP)—Fire Sunday destroyed four 3-story tenement buildings, damaged four other multiple-family dwellings and a garage, and made at least 110 persons homeless.

All the occupants escaped without serious injury. Two firefighters were seriously injured and about a score others suffered minor injuries and smoke inhalation. Nathan Volkman collapsed of a heart attack while watching flames sweep his home. He was taken to a hospital.

The Red Cross termed the fire a disaster.

FIFTY YEARS AGO

**Safe Blown At Table Rock:**  
The mill of Luther Plank at Table Rock was broken into between one and two o'clock this morning, the safe dynamited, between fifty and sixty dollars in cash, notes, checks and other valuables taken. Four burglars did the work and escaped without being caught though shots were fired after them.

The explosion was heard by no one in Table Rock. The first indication that there was anything wrong was discovered by William Funt, the Table Rock blacksmith, who was sleeping in the room above the office. He smelled smoke from dynamite and on hearing some one in the room below opened the window and shot. He heard talking and called for Mr. Plank. The latter hurried over but the burglars escaped without being caught. The night was pitch dark and only the forms of the men could be seen.

From Table Rock the burglars hastened to Biglerville where they broke into the tool house of Samuel Dugan and stole the railroad hand car. On this they made their way as far as Hunter's Run where the car was found late this morning. Shovels and other articles which had been placed on the hand car when it was put away for the night were found strewn all along the way from Gardner's to Hunter's Run.

**Story Of War Is Revealed:**  
Lost by one Federal soldier in the sudden shifting of an army corps at Chancellorsville, Va.; found two months later by another at Gettysburg; presented to Perseverance Lodge of Masons, Harrisburg, and finally, after a lapse of almost forty-six years, returned to its original owner—that is the history of a Masonic apron belonging to E. L. Fonda, of Averhill park, New York, which has recently come to light.

The history of the apron unfolds a leaf from the past and brings back again stirring memories of the Civil War.

It was found lying among the rocks on Camp's Hill at the conclusion of the second day's struggle by John Cunkel, of Harrisburg. Mr. Cunkel presented it to Perseverance Lodge in October, 12, 1893.

For some years the apron was hung on the lodge room walls, but finally it was taken down and stored with many other relics in a drawer in a cabinet.

In March 1938 Dr. John M. J. Runkel, then worshipful master of Perseverance Lodge, was rummaging through the cabinet and came across the old apron. He discovered on the back a stenciled name, "E. L. Fonda."

After many months of correspondence with the War Department, the Pension Department, the Manufacturer of the apron, and others, the owner was finally located and the apron returned.

Then it was learned that the owner also fought here and was with his regiment on Little Round Top at the time his apron, lost at Chancellorsville, was found on Camp's Hill by the Harrisburg man.

"CHILDREN LIVE TODAY"

Children have God-given power . . . to rejoice in present things . . . they look not into the future . . . nor do they seek passive springs . . . children live not for tomorrow . . . they are owners of today . . . if you doubt what I am writing . . . gaze upon a child at play . . . children want what now can offer . . . they have everything in view . . . things unknown to them are worthless . . . every dawn brings something new . . . if we older folks could only . . . halt our thoughts about tomorrow . . . this life would be void of worry . . . and there would be much less sorrow . . . but we are no longer children . . . so we scan the future's sea . . . seldom living in the present . . . often in the used-to-be.

## Today's Talk

NEVER GET USED UP!

All of us have a greater reserve of strength and power than we know. It's at the testing time that you learn your real ability to map out your daily work and see it through. One of the most remarkable men of this generation is Dr. Albert Schweitzer, who retired several years ago to manage a hospital in the jungles of Africa. Life magazine called this man "the greatest in the world at this time." He certainly is doing a remarkable work, sacrificing himself in order to serve others.

Dr. Schweitzer gave up a brilliant opportunity in music, medicine, the ministry, and many other tempting offers, but he gave them all up to serve people who were ignorant, lazy, and difficult to teach. He cared not at all for his loss of strength. He did not look upon it as a waste of himself. I find his published books most inspiring.

I came across this statement from this remarkable man: "The great secret of success is to go through life as a man who never gets used up. That is possible for him who never argues and strives with men and facts, but in all experiences retires upon himself, and looks for the ultimate cause of things in himself."

It is amazing how strong a person gets when tried in an emergency. Physical and spiritual strength then assert themselves. The reserve power takes command and rules the day and hour. Never get used up. Be all that you are. Look to God, the finisher of your faith, the inspirer of your soul. Never allow anything to use you up or damage your courage.

Tomorrow Mr. Adams will talk on the subject: "The Eyes of Springtime"

## Just Folks

PATIENCE

Success is not a thing to be attained by idle wishing. The largest fishes in the sea are caught by patient fishing.

The greatest books were only done

By years of patient writing.

The greatest battles ever won

Were won by patient fighting.

And so whatever hill you'd climb

Or what ideal you're hugging,

Remember you must wait your time,

And patiently keep plugging.

**Presents Communion Service:**  
An interesting feature of the Communion service at Bender's Church last Sunday was the use, for the first time, of the new individual communion service. This service is made of aluminum highly polished and presents the rich appearance of silver with all the advantages in respect to weight. It is the generous gift of Mrs. Eliza A. Warren to the Reformed congregation of which Rev. Theo. C. Hesson is pastor.

**We Have Moved:** The Gettysburg Times and Adams County News are now located in their new home in the North West Corner of Center Square.

**Celebrating Anniversary:** The opening services of the Silver Anniversary of the pastorate of Rev. Dr. T. J. Barkley were held on Sunday in Trinity Reformed Church. Three services were held, all of which were largely attended by the members of the two congregations and the friends of the two churches, Trinity and St. Mark's.

The ruffed grouse is also known as mountain pheasant, thunder bird, partridge and drummer.

SEATTLE (AP)—A loose connection that allowed sea water to seep into a 43-foot boat was blamed for the swamping of the pleasure cruiser with a loss of seven lives Sunday.

Survivors said some of those on board went forward to lighten the stern of the Lois Ann when the craft began shipping water. Five of the seven who drowned were trapped in the cabin. Five others were rescued.

## LOCAL SCOUTS HOST VISITORS

Explorer Post 73 of Gettysburg played host over the weekend to Boy Scouts and Explorers from Bethesda, Md., Bucks County and Lebanon during a visit to the Gettysburg Battlefield.

The 94 visiting scouts and 22 leaders camped over the weekend at Pardee Field.

Eight Explorers and two leaders of Post 73 met the visiting groups. Four of the local Explorers, James Fox, Terry Fox, Paul Funt and Marty Olson, and their advisor, Richard Kershner, accompanied them on a tour of the battlefield Saturday afternoon.

Saturday evening four other Post 73 Explorers and another adult leader joined the group at Pardee Field for a campfire program for the visitors. All of the local Explorers and visitors took part in the program.

The visiting units were 57 boys and 14 adults headed by Lefty Horst of Troop and Post 45 of Lebanon, 16 Explorers and five adults including T. R. Wolfe of the National Council and Ronald Summer of Post 221, Bethesda, Md., and 21 Explorers and three adults headed by C. R. Campbell of Post 36, Bucks County.

Friday night Explorer Post 73 held a wiener roast for the Explorers and their ladies at the scout hut at Wainwright Ave. Chaperons included Advisor Kershner, assistant Charles Beasley and Mr. and Mrs. Donald Carver.

to attend the Pennsylvania Recreation conference at Pennsylvania State University.

The ballroom dancing instruction, an experiment this spring for a group of junior high school students, "proved so successful we plan to expand the program next fall," the board decided. Discussion indicated that the dancing instruction will also probably be opened for adults as well with the adults to be asked to pay a nominal fee to help cover the cost of the instructor.

"Lassie softball," a program of softball for girls about the sixth grade level, is proving more popular than expected, the board was told. Approximately 75 have turned out for the instruction. The board plans to continue the program through the summer and possibly eventually set up a sort of girls' Little League under sponsorship of local women's groups—if the interest continues and arrangements can be made.

A letter was read from Attorney Eugene R. Hartman, chairman of the youth committee of St. James Lutheran Church, suggesting that a downtown room be rented to provide a teen-age center open each evening from 7 to 10 o'clock. The matter was tabled.

The board discussed the possibility of leasing the refreshment stand at the Recreation Field to some group or organization for the summer.

## West Shore Pupils Will Visit Field

The students of the junior class at West Shore Joint High School will make an annual trip to the Gettysburg battlefield on May 4. The students will be transported to and from Gettysburg in rented buses. The buses will leave the school at 8:30 a.m. and return at 3:30 p.m. A guide will take the students on the complete tour of the battlefield. The students will be chaperoned by Miss Ina Benz, the class dean, and Paul E. Stum and Milton Wolfe, who are history teachers for the class.

# GOP READY TO EXTEND OLD TAXES; BALK AT NEW PA. LEVIES

HARRISBURG (AP) — House Republicans today were ready to provide any votes needed to help pass that part of Gov. Lawrence's tax package which calls for extending existing taxes.

But the GOP leadership of both Houses refused to provide votes for Lawrence proposals designed to produce 237 million dollars in new tax money during the next two years.

Rep. Stephen McCann, Democratic floor leader, said Sunday night that he will call for a show-down vote on all of Lawrence's existing taxes and those to enact new levies.

**Showdown Near**

"The bills are nearly approved by House committee and I will roll them Wednesday for a final show-down vote," McCann told a newsman.

Sen. James S. Berger, GOP floor leader, said it was agreed to supply any needed house votes to extend existing taxes. "If the bills are in proper form."

Lawrence's proposed reenactment of existing taxes is designed to raise an estimated 90 million dollars to help balance his record \$1,907,000,000 budget for the 1959-61 biennium.

**None For New Ones**

"However," Berger said, "when it comes to passing the new taxes"

# SOVIETS DON'T KNOW OF PLANE

LONDON (AP) — The Soviet Union says it knows nothing about a big British freighter plane missing near Soviet territory with 12 men and secret equipment aboard.

The Soviets Sunday denied knowledge of the four-engined Avro Tudor which disappeared over mountainous East Turkey Thursday. British officials speculated foul weather had forced the aircraft into Soviet Georgia or Armenia.

Soviet jet fighters forced down a U.S. Air Force transport in the same area last June.

A Supply Ministry spokesman said the British aircraft carried "certain classified items" for the British rocket range in Australia. The plane was owned by a London charter firm. Its last reported position came from over Mus, Turkey, during its flight from Ankara to Bahrain on the Persian Gulf.

**Taylor Asks Cuts**

Two weeks ago the Legislature enacted Lawrence's sales tax proposal increasing the tax from 3 to 3½ per cent and broadening its coverage.

However, the Democratic House leadership was forced to hold back for future action sections of the proposal which would have broadened the levy to include beer and liquor sales and auto trade-ins.

Berger agreed with a weekend statement by Sen. M. Harvey Taylor, Senate president pro tempore, that sharp cuts should be made in Lawrence's budget.

But the Potter County lawmaker declined to say exactly how much or where the cuts should be made until the Senate Appropriations Committee concludes its current budget hearings.

**Wouldn't Say Where**

Taylor said 100 million dollars should be cut from the Lawrence Budget, but he, too, declined to say exactly where, except to intimate a cut in the state payroll could be a major item.

"I don't think he (Lawrence) needs all the money he asked for in his budget message," Taylor said. "No governor in my time, and I've lived here for 83 years, ever intended to get all the money he asked for."

"The budget should be cut 100 million," Taylor said. "You don't buy a piano when you can't pay the rent and right now the state"

# NEW JERSEY GIRL HEADS STUDENT PSEA

SLIPPERY ROCK, Pa. (AP) — Miss Margaret Garber of Westfield, N.J., a junior at Lebanon Valley College, is the new president of the Student Pennsylvania State Education Assn.

The organization was known formerly as the Student Education Assn. of Pennsylvania. It represents some 3,800 students preparing to enter the teaching profession.

The name of the organization was changed Saturday when these other officers also were elected: James Rolls, Philadelphia, vice president, and Beverly Reed of Fairfield, Conn., secretary.

# NEW BILL TO PROTECT KIDS

HARRISBURG (AP) — Legislation to protect the rights of children and teen-agers working on large commercial farms is being pushed by the State Department of Labor and Industry.

A bill now before the Legislature would regulate the hours the youngsters would be allowed to work on commercial farms, but exclude work on family farms and farms with less than eight employees.

It also would insure protection against work near dangerous machinery, particularly tractors.

William L. Batt Jr., secretary of labor and industry, said in a weekend statement:

"Children of eight are now often pressed into service on Pennsylvania farms, especially during the peak of the harvest season. Some of them are children of migrant workers brought into the state to harvest large vegetable and fruit crops."

# Freighter Carries U.S. Flag To Seaway

ABOARD SS Santa Regina (AP) — Delayed by pesky winds and maritime traffic jams, this 15,000-ton freighter Monday carried the U.S. flag through the American locks of the newly opened St. Lawrence Seaway.

The Grace Line's Santa Regina is the biggest ship to enter the seaway since it opened Saturday and the first of U.S. registry.

Her captain hoped to be the first to reach Chicago, but he may need plenty of home stretch fury. Some 10 hours ahead is the Dutch Prince Johan Willem Friso, 2,338 tons and also Chicago-bound. The first ocean-class ship to enter the Seaway, the Friso escaped most of the traffic snarls that bedeviled the 14th place American ship.

# Plane Minus Motor Is Landed Safely

GANDER, Nfld. (AP) — An Irish airliner bringing home 63 crippled and retarded American children from the Catholic shrine at Lourdes lost one of its four engines over the Atlantic early Monday but landed safely at Gander.

Aboard with the children were Richard Cardinal Cushing of Boston, leader of the pilgrimage; 17 nuns and 11 other adults.

The group left Shannon Airport for home Sunday night. Hundreds flocked to the airport to bid them farewell, and the prolonged goodbyes delayed the takeoff an hour.

**Half A Football Field**

It probably will be toward the close of summer, however, before tests and shakedown flights are finished and the planes go into service.

The size of the plane extends half the length of a football field and is nearly as wide. To be precise, 144½ feet long and 130 feet 10 inches from wingtip to wingtip.

To the left after entering through the forward door is the cockpit in the nose with a maze of dials, instruments, controls and warning horns, bells and lights. There are seats for the pilot, copilot, flight engineer and navigator, and spare seat for a third pilot.

Behind the cockpit is a 15-foot section containing a galley, lavatory, coat closet and communications facilities. Here are the latest in radio-telephone and radioteletype equipment, enabling the President and key officials to keep in touch with Washington from any part of the world.

**Five Hours To West Coast**

Next comes a 10-foot forward seating section with eight seats. Then the President's, or VIP, section — most luxurious in the plane.

To the rear is the largest seating section, 32 feet, with 28 seats.

# FIRST OF 3 BIG JETS GOES TO AF FOR VIP

By PAUL WELLS

SEATTLE (AP) — In two days a gleaming silver and orange 600-mile-an-hour jet will be turned over to the Air Force—the first of three identical planes for the President and other high officials.

All secrecy wraps were taken off Monday and newsmen were allowed through the VC137, as it is designated, for the first time.

What's it like?

Big, powerful, fast safe, modern and equipped with the latest electronic and communications devices.

**Two More By June**

Basically, it's a Boeing Commercial 707 with redesigned interior for special government missions. The President will use the four-engine jet for long flights.

"We were given some guidance in the matter," said A. I. Ostlund, tanker-transport systems manager for the Boeing Airplane Co. at a briefing session.

The first of the 5½-million-dollar VC137s to be delivered to the Military Air Transport Service Thursday will be followed by the second near the end of May and the third late in June.

The size of the plane extends half the length of a football field and is nearly as wide. To be precise, 144½ feet long and 130 feet 10 inches from wingtip to wingtip.

# C.C. PREXY ASKS BATTLE FOR A SOUND DOLLAR

WASHINGTON (AP) — Businessmen must plunge into the political arena to battle for a sound dollar and free markets, the president of the U.S. Chamber of Commerce said Monday.

"We must quit thinking of politics as a dirty word," William A. McDonnell said in the keynote address opening the chamber's 47th annual meeting here.

"Any businessman who insists that he is not interested in politics is like a drowning man who says he's not interested in water," McDonnell declared. "We are in it up to our necks and we had better learn how to swim and to swim effectively."

The meeting continues through Wednesday.

The chamber has supported Eisenhower's stand for economy in government, though it has insisted

# Deacon Loses In Tussle With Thief

MIAMI, Okla. (AP) — The Rev. J. C. Harris was preaching at the First Methodist Church Sunday when a loud noise and vibration was heard behind the choir loft.

Rev. Harris continued unruffled. The congregation, including Ottawa County Sheriff Ben Standley, soon forgot it.

After the sermon Deacon Clyde Barkett said he had caught a burglar rifling purses of choir members. He tussled with the man, falling down two flights of stairs. The burglar escaped with about \$350.

even greater savings should be made.

McDonnell, a St. Louis banker, underscored the inflation theme in his keynote talk.

The dollar has lost 52 cents of its purchasing power in the past 20 years, he said, and continued: "If we keep on going as we have been, we will have a 35-cent dollar 10 years from now and a 25-cent dollar in another 10 years, and a 1-cent dollar a little further down the line."

# Freighter Carries U.S. Flag To Seaway

ABOARD SS Santa Regina (AP) — Delayed by pesky winds and maritime traffic jams, this 15,000-ton freighter Monday carried the U.S. flag through the American locks of the newly opened St. Lawrence Seaway.

The Grace Line's Santa Regina is the biggest ship to enter the seaway since it opened Saturday and the first of U.S. registry.

Her captain hoped to be the first to reach Chicago, but he may need plenty of home stretch fury. Some 10 hours ahead is the Dutch Prince Johan Willem Friso, 2,338 tons and also Chicago-bound. The first ocean-class ship to enter the Seaway, the Friso escaped most of the traffic snarls that bedeviled the 14th place American ship.

# Plane Minus Motor Is Landed Safely

GANDER, Nfld. (AP) — An Irish airliner bringing home 63 crippled and retarded American children from the Catholic shrine at Lourdes lost one of its four engines over the Atlantic early Monday but landed safely at Gander.

Aboard with the children were Richard Cardinal Cushing of Boston, leader of the pilgrimage; 17 nuns and 11 other adults.

The group left Shannon Airport for home Sunday night. Hundreds flocked to the airport to bid them farewell, and the prolonged goodbyes delayed the takeoff an hour.

**Half A Football Field**

It probably will be toward the close of summer, however, before tests and shakedown flights are finished and the planes go into service.

The size of the plane extends half the length of a football field and is nearly as wide. To be precise, 144½ feet long and 130 feet 10 inches from wingtip to wingtip.

To the left after entering through the forward door is the cockpit in the nose with a maze of dials, instruments, controls and warning horns, bells and lights. There are seats for the pilot, copilot, flight engineer and navigator, and spare seat for a third pilot.

Behind the cockpit is a 15-foot section containing a galley, lavatory, coat closet and communications facilities. Here are the latest in radio-telephone and radioteletype equipment, enabling the President and key officials to keep in touch with Washington from any part of the world.

**Five Hours To West Coast**

Next comes a 10-foot forward seating section with eight seats. Then the President's, or VIP, section — most luxurious in the plane.

To the rear is the largest seating section, 32 feet, with 28 seats.

### SIX-CYLINDER-POWERED CARS IN SPECTACULAR GAIN

The economy angle stressed so much in past months by foreign car dealers and importers, as well as by Rambler and Studebaker, has undoubtedly changed the complexion of the type of equipment U.S. car buyers are ordering.

For the first quarter of the 1959 model run a whopping 66.66 per cent of the hard tops, sedans and coupe body styles produced by the "Big Three" in their low-priced models consisted of cars powered by six-cylinder engines.

During the entire 1958 model year, 65.3 per cent of Chevrolet's Biscayne, Ford's Custom 300, Plymouth's Savor, Rambler's Deluxe, Super Custom and Rebel Super, and Studebaker's Lark models were fitted with six-cylinder engines. V-8 output dropped to 33.4 per cent, from 34.7 per cent.

A SURPRISING FACT is that six's are going into 39.5 per cent of the 1959 model station wagons, which include all series of Ford, Chevrolet, Plymouth, Rambler and Studebaker. The count for the 1958 model run was 34.1 per cent for the six's.

So far the V-8 share of 1959 models is down to 60.5 per cent, from 65.3 per cent last year.

Even a higher percentage of cars would be sold if factories had the capacity to supply the current demand for six's. Ford especially is hard hit, as their six-cylinder engine is manufactured in Cleveland, Ohio and a higher six-cylinder engine production is needed and planned. Ford is doing its utmost to keep up with six-cylinder demand by importing about 500 six-cylinder engines a day from their new Canadian subsidiary factory in Windsor, Ontario, Canada. Ford has had a spectacular sales increase and the increase has been, apparently, for models not anticipated. It is reported that 60 per cent of the present unfilled backlog of orders for Ford cars is for six-cylinder-powered models; and even the Edsel is now available with the

### FORD'S GALAXIE, introduced

a few weeks ago, has caught the fancy of thousands of buyers and 35 per cent of current orders are for Galaxie models, which seems to indicate that the U.S. buyer is still not in the mood to purchase the lowest-priced models of any of the "Big Three". Chevrolet and Plymouth have both experienced an increased demand, percentage-wise, for their luxury models.

In the low-priced field station wagons were sold with 25 per cent powered with six-cylinder engines, Rambler and Lark by Studebaker's, both smaller than conventional U.S. cars, have had skyrocketing sales and six-cylinder engines are by far the most popular power plants in each of these makes.

### CAR SALES WITH DUAL EXHAUSTS ARE SLIPPING

For four years ago cars equipped with dual exhaust pipes were riding the crest of popularity. But something has happened in recent months. So far this year dual exhaust-equipped models have slipped 16 per cent over the same period for 1958.

At this same rate dual exhaust system equipment will drop approximately 300,000 factory-installed units for the 1959 model year — this is figured on an estimated 1959 production of 5.9 million cars.

Another thing that has fallen by the wayside — and which in my opinion is an excellent change — is that the dual pipes no longer extend through the rear bumper. This idea was no good from the start — it added nothing to the appearance of the car, and soot and carbon expelled at the end of the tail pipes only served to dirty the bumpers, and many persons found this soot on their clothing when coming into contact with the rear bumper.

At one time 64 per cent of Ford cars were equipped with dual exhausts, as optional equipment. Dual systems are standard equipment this year on Cadillac, Lincoln, Imperial, Chrysler, Thunderbird and some other top price series of other makes. The dual systems usually are sold in combination packages which include special high-powered engines, and are available at purchaser's option.

## THE DRIVER'S SEAT

Shedding some light on a serious highway safety problem, a prominent eye specialist from a noted university recently commented:

"The prime reason for the excess of night accidents is inadequate vision."

The doctor has made an excellent diagnosis of the cause of the biggest problem the man in the driver's seat faces today: how to stay off the growing nighttime accident list.

One prescription purposes the installation of lighting poles along most of the nation's 3,051,000 miles and streets. This would naturally increase visibility, but would cost taxpayers about \$50,000 per mile to install — or \$371 in taxes per person in the U.S. Costs for power, bulbs and maintenance are extra and continuous.

### Use Up Power

The lights, of course, would continue to burn and use up public power and money even when there are just a few or no cars on the lighted stretch of road. Lights are necessary in key traffic areas, but using them on most roads is somewhat like leaving all the lights burning in the house when everyone is fast asleep.

### Typical Example

One typical example of how this quick and economical solution to night accidents works is Harvey County, Kansas. Just \$4,000 was spent to apply materials that reflect car headlights. As cars approach at night their own lights brighten up the things the driver needs to see. They're visible when needed but cost nothing to operate.

The score sheet in Harvey County: nighttime accidents cut by one-third one year after this self-regulating safety system was installed, and injuries from night

## 12,000 Census Jobs Will Open

HARRISBURG (AP) — Pennsylvania Republican leaders and members of the GOP state congressional delegation will soon have some 12,000 temporary jobs to fill for two federal censuses.

George I. Bloom, GOP state chairman, said Saturday that he recently conferred with U. S. Sen. Hugh Scott (R-Pa.) and Pennsylvania's Republican congressmen on procedures for naming field assistants for a farm census this year and supervisors for a population and housing census in 1960.

The field assistants and supervisors will choose the census takers.

Recruiting enumerators for the farm survey is expected to begin next October.

## Forest Fire Causes Damage Of \$10,000

STROUDSBURG, Pa. (AP) — At least \$10,000 damages was done by a forest fire that swept through 1,000 acres of young timber and temporarily trapped six foresters on seven pine mountain near here.

Eugene McNamara, district forester of the State Forests and Waters department, said Sunday that \$10,000 would be a conservative estimate of the loss in timber and wildlife.

The fire began shortly before noon Saturday. One hundred volunteers brought it under control 10 hours later. The cause of the blaze was not known.

## Boston Tenement Fire Routes 110

BOSTON (AP) — Fire Sunday destroyed four 3-story tenement buildings, damaged four other multiple-family dwellings and a garage, and made at least 110 persons homeless.

All the occupants escaped without serious injury. Two firefighters were seriously injured and about a score others suffered minor injuries and smoke inhalation. Nathan Volkman collapsed of a heart attack while watching flames sweep his home. He was taken to a hospital.

### The Red Cross termed the fire a disaster.

WASHINGTON (AP) — Approval of an advance of \$29,500 to the Borough of Montrose Pa., for the planning of sanitary sewerage facilities was announced today by the Community Facilities Administration.

accidents reduced 66 per cent. What's good for Harvey County might well be good for the country — and the public's pocketbook.

## Logic Helps Sale Of Reference Book

BAITMORE (AP) — A woman selling reference books for children was demonstrating how her product makes a boy think for himself.

She showed 4-year-old Frederick Spinning a picture of three small birds, one with an open beak, and one larger bird.

"Which bird gets the worm, Freddie?" she asked.

"The bird on the end of the row," Freddie replied. "He's the biggest."

She made a sale.

TUNIS (AP) — At least 16 Tunisians have been killed and 60 injured in floods in Tunisia following torrential weekend rains.

At least one person was killed and 29 injured when a passenger train plunged into a swollen river near Sfax, on the east coast. Reports indicated the bridge carrying the train across the river collapsed.

## Asks Probe Of State Elections

HARRISBURG (AP) — Rep. Francis Worley (R-Adams) has asked for a legislative investigation of state election procedures to determine if there have been any frauds, particularly in the large cities.

He introduced a resolution in the House Monday night, proposing a 10-member House-Senate committee "to investigate into the practices and procedures employed in the holding of elections throughout the Commonwealth, giving particular attention to election practices in large cities."

Worley told a newsman he has specific information to warrant such an investigation.

"If these reports are true," he said, "this is an internal threat to our democracy."

## TEACHERS FOR

(Continued From Page 1)

was revealed to be at low ebb with a balance of \$3,116.84 after March disbursements of \$12,229.62. Keefer said that this condition is expected to be relieved shortly with the receipt of state money that has been due since February.

### Aim Of Bill

House Bill 1108, passage of which is being urged, would raise from \$5,800 to \$9,000 the maximum cost of operation per classroom on which state payments to local school districts would be based.

Under the present basis, the state shares in the cost of operation of schools up to \$5,800 per teaching unit. Whatever it costs over \$5,800 per unit is born locally.

Since in some districts the state pays as much as 30 per cent (sometimes more) of the cost of education up to the maximum basis, the local share of cost over the \$5,800 ceiling can become a sizeable amount when actual costs range upward of \$8,000, board members pointed out.

Surveys reported by the Pennsylvania State Education Association show that costs generally in many school districts are in the neighborhood of \$8,000 per classroom unit.

### Must Be Paid

The rising costs of operating schools are attributed largely to state mandated requirements which the local districts cannot avoid. While costs were below or not far about the \$5,800 level, local shares increased gradually and in some districts were not even reflected in increased tax rates because new private build-

ing increased the assessment total. Thus mill rates could remain constant yet produce the necessary additional tax revenue to carry the growing burden of paying for education.

Where taxes have increased, the increase has been fairly gradual. As costs go above the \$5,800 mark, however, all of the additional money must come in from local taxes. Various districts have been meeting this need by adding residence taxes, amusement taxes, property transfer taxes and by upping the mill rate.

Meanwhile the state legislature, directly or through power delegated to the superintendent of public instruction, has been requiring additional services and higher salaries for teachers, all of which add up to more cost of school operation, directors said.

The county board resolution calls the present school subsidy act "inequitable and unfair to school districts of Adams County" and adds that "unreasonable and in many cases unbearable tax loads will be imposed on the citizens" of the county under the present law.

House Bill 1108 is cited as a "fair and equitable solution to this situation."

The resolution petitions the General Assembly and Gov. David L. Lawrence to approve the bill and adds that "this board of school directors... pledge support to the tax program necessary to finance the cost of this legislation."

Copies of the resolution are to be sent to Gov. Lawrence, State Sen. Douglas H. Elliott, Assemblyman Francis Worley and to other key legislators.

## May Ask \$800,000 For Hard Up School Districts To Remove Fire Hazards

By LEONARD A. UNGER

HARRISBURG (AP)—The Lawrence administration has come up with a figure of roughly eight million dollars as the cost of correcting fire hazards in the 5,200 public school buildings in the state.

A spokesman, who asked not to be identified, said Monday that only the governor's approval was needed before asking the Legislature to set up a special \$800,000 appropriation to help financially distressed districts on such a program.

"We estimate that 99 per cent of the school districts in the state are in a financial position sound enough to handle their own repairs without any state help," he told the Associated Press.

"Many of them are already doing so."

Sixty Per Cent Need Changes  
The Labor and Industry and the Public Instruction Departments recently completed a survey which came up with the eight million dollar figure.

The report, virtually ready for presentation to the governor, says

that of the 5,200 public school buildings in the state, some 2,600 have been built or modernized since 1949 and 1,300 were built prior to 1900.

Sixty percent have been inspected for possible fire hazards and two out of three show the need for repairs to correct fire hazards, the spokesman said.

Parochial Schools Not Included  
The figures don't include the 1,400 parochial school buildings in the Commonwealth. They are subject to state inspection but are not eligible for state aid for improvements.

As a result of inspections completed as of April 15, the spokesman said, the Labor and Industry Department has issued 2,023 orders to correct fire hazards. Most of them are minor; but three schools have been ordered closed entirely and the second floors of 19 schools have been shut off because of unsafe conditions.

Three-part Program  
A three-part program outlined in the tentative report calls for: Setting up a fund of about \$800-

## Runaway Smashes Hansom Cab In N.Y.

NEW YORK (AP)—People along Sixth Avenue Sunday night stopped and gaped at a rare sight—a runaway horse and a hansom cab.

The cab, which usually carries couples on leisurely trips through Central Park, was drawn by a 14-year-old gray horse named George.

George was waiting for passengers at a park entrance when he was startled by a car backfire and went careening down the avenue, leaving his driver behind.

The empty cab was smashed as George bolted between two parked cars. George was caught some distance away, shaken but unhurt.

## 6 Negro Teen-agers Injured By Pellets

RICHMOND, Va. (AP)—Six Negro teen-agers walking home from a store were wounded Sunday night when hit by shotgun pellets reportedly fired by white boys from two speeding automobiles.

Police said the Negro boys told them three separate blasts were fired from the cars as they whipped through the Negro neighborhood.

Struck in the stomach and seriously wounded were Samuel Clark Jr., 15, and Carlton Washington, 16. Both were hospitalized.

The injured boys said they could not identify the white boys and had no idea why they were shot at.

The white boys involved in the shootings, police said, were believed to have been among white youths who engaged in a rock-throwing incident with Negro teen-agers earlier Sunday night.

1000 to aid financially distressed school districts in correcting fire hazards. These districts would be limited to those so poor that they have a problem year after year of meeting payrolls.

Giving priority to districts with fire-hazardous schools for state aid for school construction. These districts would be placed at the head of a list of 665 projects now awaiting state aid for new school construction. This state aid averages about 50 per cent of the cost of construction.

Ordering school fire drills to be held twice a month instead of only once monthly and providing for more intensive instruction of teachers and other school personnel in fire safety.

Rep. Albert W. Johnson (R-Mc) already has sponsored legislation to set up a three-million-dollar fund to help school districts with fire hazard problems.

The measure makes no distinction as to whether the money should go to a wealthy or poor school district.

## LIU SHAO-CHI NEW PRESIDENT OF RED CHINA

By JOHN RODERICK

TOKYO (AP)—Liu Shao-chi, hatched-faced theoretician of the Communist party, moved up Monday to the presidency of Red China. Peiping radio called him a "leader second only to Mao Tse-tung."

Chou En-Lai was re-named premier.

Mao relinquished the presidency to free himself for his more important duties as chairman of the Chinese Communist party. Choice of Liu, a 61-year-old Hunanese, strengthened his position as Mao's heir-apparent.

Peiping radio indicated, however, that Liu was not opposed early this month when the party command chose him to be chairman—or president—of the government, which under Mao had been a largely ceremonial post. It said that he "had the support of a large segment of party members," suggesting the choice was not unanimous.

Founder's Widow Named  
Mme. Sun Yat-sen, widow of the founder of republican China, and veteran revolutionary Tung Pi-wu were named vice chairmen, succeeding Marshal Chu Teh who had held the job alone.

Chu, old comrade of Mao and former warlord governor of Yunnan province, had been expected to succeed Mao in the presidency. Instead, the 72-year-old marshal got Liu's old job as chairman of the important Standing Committee of the National People's Congress, the Red Chinese parliament.

Though Mao gave up the presidency, he remains Red China's undisputed boss as chairman of the Communist Central Committee. He undoubtedly personally chose Liu for the presidency in an apparent effort to groom him for the leadership of the party, where Liu already holds the No. 2 position.

The party leadership's choices were put before the People's Congress last week. The nominations were unopposed, and the 1,157-member Congress went through the formality of voting.

## Find No Trace Of Missing Housewives

CLARKSBURG, W.Va. (AP)—The most intensive search so far for the missing Clarksburg housewives is ending like all the others before it—with nothing found.

Four National Guard companies, six fire departments, skin divers and volunteers joined police over the weekend to look for Mrs. Juanita Ferguson, 53, and Mrs. Virginia Conley, 54. The women have not been seen since they stopped at Sutton the night of April 8 while driving home from Beckley.

State Police Capt. C. L. Walker said that only a few secondary roads near Jackson's Mill remained to be checked. A handful of guardsmen are to go over them today.

## Diplomat Flies To London With Family

TEHRAN, Iran (AP)—The Czechoslovak Embassy said Monday the mysterious Czech diplomat who flew into London over the weekend was definitely traveling to Czechoslovakia when he left Tehran.

Dr. Jan Maier, second secretary of the embassy, left Tehran by air with his wife and two children. He had been serving in Iran since July 5, 1956.

After his arrival in London Saturday, the British Home Office said he had been granted permission to stay for three months but declined comment on reports that he was seeking political asylum in the West.

NEW YORK (AP)—Police epidemic "storm warnings" are becoming serious, the National Foundation reports.

The foundation said Sunday the number of paralytic polio cases in the United States increased 80 per cent for the first quarter of this year, compared to last year. Basil O'Connor, foundation president, said a half million dollars will be set aside for a vaccination program.

## SAY TEACHER SHORTAGE IS EASING IN U.S.

By C. K. HODENFIELD

AP Education Writer

WASHINGTON (AP)—The nation's teacher shortage is easing somewhat in the critical fields of science, mathematics and foreign languages, the National Education Assn. reported Monday.

In its annual survey, the NEA found that the over-all shortage would be about 135,000 teachers, the same as last fall.

The survey did not give a state-by-state breakdown. However, a spot check by The Associated Press last winter indicated that the states suffering the most are California, Michigan, Texas, New Jersey, New York and Ohio.

New Crop In June  
The NEA said the 1959 college graduating class promises to produce 6,504 new science teachers, an increase of 28 per cent over 1958. There will be 4,723 new math teachers, up 37 per cent, and 2,005 new foreign language teachers, up

## Clever Burglar Hooks Mink Stole

BEVERLY HILLS, Calif. (AP)—Now police can tell the cat about the burglar who fished for mink.

Sunday night, they said, a burglar went to a Wilshire Boulevard fur shop armed with a toy pistol that shoots darts. He aimed through a package drop, police said, fired a dart into a stole on a manikin, then used a line to pull out the garment.

How did they figure it out? One hook-equipped dart—apparently a near miss—was found hooked in the manikin's dress.

RESCUED FROM CAVE  
CASTLETON, England (AP)—Rescuers spent 12 hours Sunday hauling John Keens, 21, though narrow, twisting passages from a rock shelf 420 feet underground.

Keens had entered the cave with a party of explorers. A rope broke and he tumbled 15 feet onto a shelf on the brink of a chasm, breaking an ankle. By the time he was brought out, he was also suffering from exhaustion.

CHICAGO (AP)—Peter Joseph Weiland, 56, general manager of the Milwaukee Railroad's eastern lines, died Saturday. He had been with the line more than 40 years.

A kitchen telephone makes life so much easier. When you're cooking and someone calls it lets you reach instead of run. No more burned beets or overcooked cauliflower for the gal with a kitchen telephone. She can cook and talk at the same time thanks to its wonderful step saving convenience.

Call our business office today for full information on a kitchen telephone. There is one that is just the right color for your home. And the cost is surprisingly low.

## Hotelmens Fight Pa. Blue Laws

UNIVERSITY PARK, Pa. (AP)—The Pennsylvania Hotels Assn. has urged the Legislature to either scrap the Sunday Blue Laws or enforce them equitably.

Branding the Blue Laws "horse and buggy" statutes, the association's Board of Directors called for their repeal in a resolution adopted at a meeting Saturday.

Edmund A. Leech, of Pittsburgh president of the hotel group, said: "If the Blue Laws and other discriminatory regulations were repealed, Pennsylvania's hotels and resorts could inject at least 12 million dollars into the Commonwealth's economy in convention business alone."

## PROPOSE NEW VIRUS STRAINS IN DISEASE WAR

By FRANK CAREY

WASHINGTON (AP)—Temperature-lamed viruses were suggested today as a possible new approach to developing vaccines against unconquered viral diseases.

Experiments have shown that some strains of virus can be developed to grow best at higher temperatures and others at lower readings. Dr. Albert B. Sabin reported. Their potency can be made to vary accordingly, he added.

Dr. Sabin, a nationally known researcher at the University of Cincinnati College of Medicine, prepared his report for the annual meeting of the National Academy of Sciences.

**Develop New Strains**

He said the findings might open the way to such things as:

1. Developing improved strains of virus for use in the recently developed polio vaccines of the "live virus" type.

2. Developing weaker strains of the viruses responsible for a variety of human and animal diseases against which there are no vaccines at present. The idea would be to use the tamed viruses in vaccines.

**Controversial Virus**

Dr. Sabin is one of the developers of the still-controversial "live virus" vaccines against polio. These have not yet been approved by the Public Health Service for extensive field-testing in this country.

He said the new findings about the genetics of polio viruses were an outgrowth of the research that produced the viruses now employed in such "live virus" vaccines.

## GOP READY TO EXTEND OLD TAXES; BALK AT NEW PA. LEVIES

HARRISBURG (AP) — House Republicans today were ready to provide any votes needed to help pass that part of Gov. Lawrence's tax package which calls for extending existing taxes.

But the GOP leadership of both Houses refused to provide votes for Lawrence proposals designed to produce 257 million dollars in new tax money during the next two years.

Rep. Stephen McCann, Democratic floor leader, said Sunday night that he will call for a show-down vote on all of Lawrence's existing taxes and those to enact new levies.

Showdown Near  
"The bills are already approved by House committee and I will roll them Wednesday for a final show-down vote," McCann told a newsman.

Sen. James S. Berger, GOP floor leader, said it was agreed to supply any needed house votes to extend existing taxes. "If the bills are in proper form"

Lawrence's proposed reenactment of existing taxes is designed to raise an estimated 90 million dollars to help balance his record \$1,907,000,000 budget for the 1959-61 biennium.

None For New Ones  
"However," Berger said, "when it comes to passing the new taxes"

proposed by Lawrence, we decided again that no Republican votes would be given in the House."

The Democrats have only a one-vote margin above the necessary 106 votes needed to pass a bill in the House.

Berger predicted a rough road for some of the new tax proposals made by Lawrence if they do pass in the House with Democratic votes.

"Certain of those measures, if they were passed in the House by Democratic votes, I know would not be passed here in the Senate," the GOP leader said. He did not stipulate which measures.

**Taylor Asks Cuts**  
Two weeks ago the Legislature enacted Lawrence's sales tax proposal increasing the tax from 3 to 3½ per cent and broadening its coverage.

However, the Democratic House leadership was forced to hold back for future action sections of the proposal which would have broadened the levy to include beer and liquor sales and auto trade-ins.

Berger agreed with a weekend statement by Sen. M. Harvey Taylor, Senate president pro tempore, that sharp cuts should be made in Lawrence's budget.

But the Potter County lawmaker declined to say exactly how much or where the cuts should be made until the Senate Appropriations Committee concludes its current budget hearings.

**Wouldn't Say Where**  
Taylor said 100 million dollars should be cut from the Lawrence Budget, but he, too, declined to say exactly where, except to intimate a cut in the state payroll could be a major item.

"I don't think he (Lawrence) needs all the money he asked for in his budget message," Taylor said. "No governor in my time, and I've lived here for 33 years, ever intended to get all the money he asked for."

"The budget should be cut 100 million," Taylor said. "You don't buy a piano when you can't pay the rent; and right now the state"

## SOVIETS DON'T KNOW OF PLANE

LONDON (AP) — The Soviet Union says it knows nothing about a big British freighter plane missing near Soviet territory with 12 men and secret equipment aboard.

The Soviets Sunday denied knowledge of the four-engine Avro Tudor which disappeared over mountainous East Turkey Thursday. British officials speculated foul weather had forced the aircraft into Soviet Georgia or Armenia.

Soviet jet fighters forced down a U.S. Air Force transport in the same area last June.

A Supply Ministry spokesman said the British aircraft carried "certain classified items" for the British rocket range in Australia. The plane was owned by a London charter firm. Its last reported position came from over Mus, Turkey, during its flight from Ankara to Bahrain on the Persian Gulf.

**HARRISBURG (AP)**—Gov. Lawrence says he will ask the Legislature to tighten bonding requirements for strip coal mine operators in a move to insure against permanent scarring of Pennsylvania landscapes.

is having trouble making ends meet."

Taylor's demand coincided with a suggestion by a member of the Senate Appropriations Committee that Lawrence might have to eliminate all proposed new programs in his budget.

**Oppose Six-mill Levy**  
The committee member, who declined quotation by name, said that "in view of the tax situation, there will have to be a substantial reduction — possibly to the point where we would have to eliminate all new programs."

He said the six-mill intangible personal property tax had no chance of passage. The measure would apply to mortgages and out-of-state stocks and bonds and would bring an estimated 55 million dollars a biennium.

"This bill is a first cousin to a state income tax," Taylor charged. "That's one tax bill that I know every Republican is against."

## New Jersey Girl Heads Student PSEA

SLIPPERY ROCK, Pa. (AP)—Miss Margaret Garber of Westfield, N.J., a junior at Lebanon Valley College, is the new president of the Student Pennsylvania State Education Assn.

The organization was known formerly as the Student Education Assn. of Pennsylvania. It represents some 3,800 students preparing to enter the teaching profession.

The name of the organization was changed Saturday when three other officers also were elected: James Rolfs, Philadelphia, vice president, and Beverly Reed of Fairfield, Conn., secretary.

## NEW BILL TO PROTECT KIDS

HARRISBURG (AP) — Legislation to protect the rights of children and teen-agers working on large commercial farms is being pushed by the State Department of Labor and Industry.

A bill now before the Legislature would regulate the hours the youngsters would be allowed to work on commercial farms, but exclude work on family farms and farms with less than eight employees.

It also would insure protection against work near dangerous machinery, particularly tractors.

William L. Bart Jr., secretary of labor and industry, said in a weekend statement.

"Children or eight are now often pressed into service on Pennsylvania farms, especially during the peak of the harvest season. Some of them are children of migrant workers brought into the state to harvest large vegetable and fruit crops."

**ENDORSE EAGEN**  
HARRISBURG (AP) — Judge Michael J. Eagen, the Democratic organization's choice for State Supreme Court, has been endorsed by the Industrial Council (CIO) in his home county of Lackawanna.

The labor organization said in a letter to Eagen Sunday that "We feel you are well qualified for the State Supreme Court."

## FIRST OF 3 BIG JETS GOES TO AF FOR VIP

By PAUL WELLS

SEATTLE (AP) — In two days a gleaming silver and orange 600-mile-an-hour jet will be turned over to the Air Force—the first of three identical planes for the President and other high officials. All secrecy wraps were taken off Monday and newsmen were allowed through the VC137, as it is designated, for the first time.

What's it like?  
Big, powerful, fast safe, modern and equipped with the latest electronic and communications devices.

**Two More By June**  
Basically, it's a Boeing Commercial 707 with redesigned interior for special government missions. The President will use the four-engine jet for long flights.

"We were given some guidance in the matter," said A. I. Ostlund, tanker-transport systems manager for the Boeing Airplane Co. at a briefing session.

The first of the 5½-million-dollar VC137s to be delivered to the Military Air Transport Service Thursday will be followed by the second near the end of May and the third late in June.

**Half A Football Field**  
It probably will be toward the close of summer, however, before tests and shakedown flights are finished and the planes go into service.

The size of the plane extends half the length of a football field and is nearly as wide. To be precise, 144½ feet long and 130 feet 10 inches from wingtip to wingtip.

To the left after entering through the forward door is the cockpit in the nose with a maze of dials, instruments, controls and warning horns, bells and lights. There are seats for the pilot, copilot, flight engineer and navigator, and spare seat for a third pilot.

Behind the cockpit is a 15-foot section containing a galley, lavatory, coat closet and communications facilities. Here are the latest in radio-telephone and radioteletype equipment, enabling the President and key officials to keep in touch with Washington from any part of the world.

**Five Hours To West Coast**  
Next comes a 10-foot forward seating section with eight seats. Then the President's, or VIP, section—most luxurious in the plane.

To the rear is the largest seating section, 32 feet, with 28 seats.

## Freighter Carries U.S. Flag To Seaway

ABOARD SS Santa Regina (AP) — Delayed by pesky winds and maritime traffic jams, this 15,000-ton freighter Monday carried the U.S. flag through the American locks of the newly opened St. Lawrence Seaway.

The Grace Line's Santa Regina is the biggest ship to enter the seaway since it opened Saturday and the first of U.S. registry.

Her captain hoped to be the first to reach Chicago, but he may need plenty of home stretch fury. Some 10 hours ahead is the Dutch Prince Johan Willem Friso, 2,338 tons and also Chicago-bound. The first ocean-class ship to enter the Seaway, the Friso escaped most of the traffic snarls that bedeviled the 14th place American ship.

## Plane Minus Motor Is Landed Safely

GANDER, Nfld. (AP)—An Irish airliner bringing home 63 crippled and retarded American children from the Catholic shrine at Lourdes lost one of its four engines over the Atlantic early Monday but landed safely at Gander.

Aboard with the children were Richard Cardinal Cushing of Boston, leader of the pilgrimage: 17 nuns and 11 other adults.

The group left Shannon Airport for home Sunday night. Hundreds flocked to the airport to bid them farewell, and the prolonged goodbyes delayed the takeoff an hour.

In a double row.  
Farthest aft is an 18-foot section holding three stainless steel galleys, more coat closets, two lavatories and the rear entry door. Speed will cut down the time aloft. Transcontinental trips for ample will be reduced from 8½ to 5 hours. Capitals of Europe can be reached in 6-7 hours.

## C.C. PREXY ASKS BATTLE FOR A SOUND DOLLAR

WASHINGTON (AP)—Businessmen must plunge into the political arena to battle for a sound dollar and free markets, the president of the U.S. Chamber of Commerce said Monday.

"We must quit thinking of politics as a dirty word," William A. McDonnell said in the keynote address opening the chamber's 57th annual meeting here.

"Any businessman who insists that he is not interested in politics is like a drowning man who says he's not interested in water," McDonnell declared. "We are in it up to our necks and we had better learn how to swim and to swim effectively."

The meeting continues through Wednesday.

## Deacon Loses In Tussle With Thief

MIAMI, Okla. (AP)—The Rev. J. C. Harris was preaching at the First Methodist Church Sunday when a loud noise and vibration was heard behind the choir loft.

Rev. Harris continued unruffled. The congregation, including Ottawa County Sheriff Ben Standley, soon forgot it.

After the sermon Deacon Clyde Barker said he had caught a burglar rifling purses of choir members. He tussled with the man, falling down two flights of stairs. The burglar escaped with about \$350.

even greater savings should be made.

McDonnell, a St. Louis banker, underscored the inflation theme in his keynote talk.

The dollar has lost 52 cents of its purchasing power in the past 20 years, he said, and continued: "If we keep on going as we have been, we will have a 35-cent dollar 9 years from now and a 25-cent dollar in another 10 years, and a 1-cent dollar a little further down the line."
